

Vu du ciel

notre monde est beau

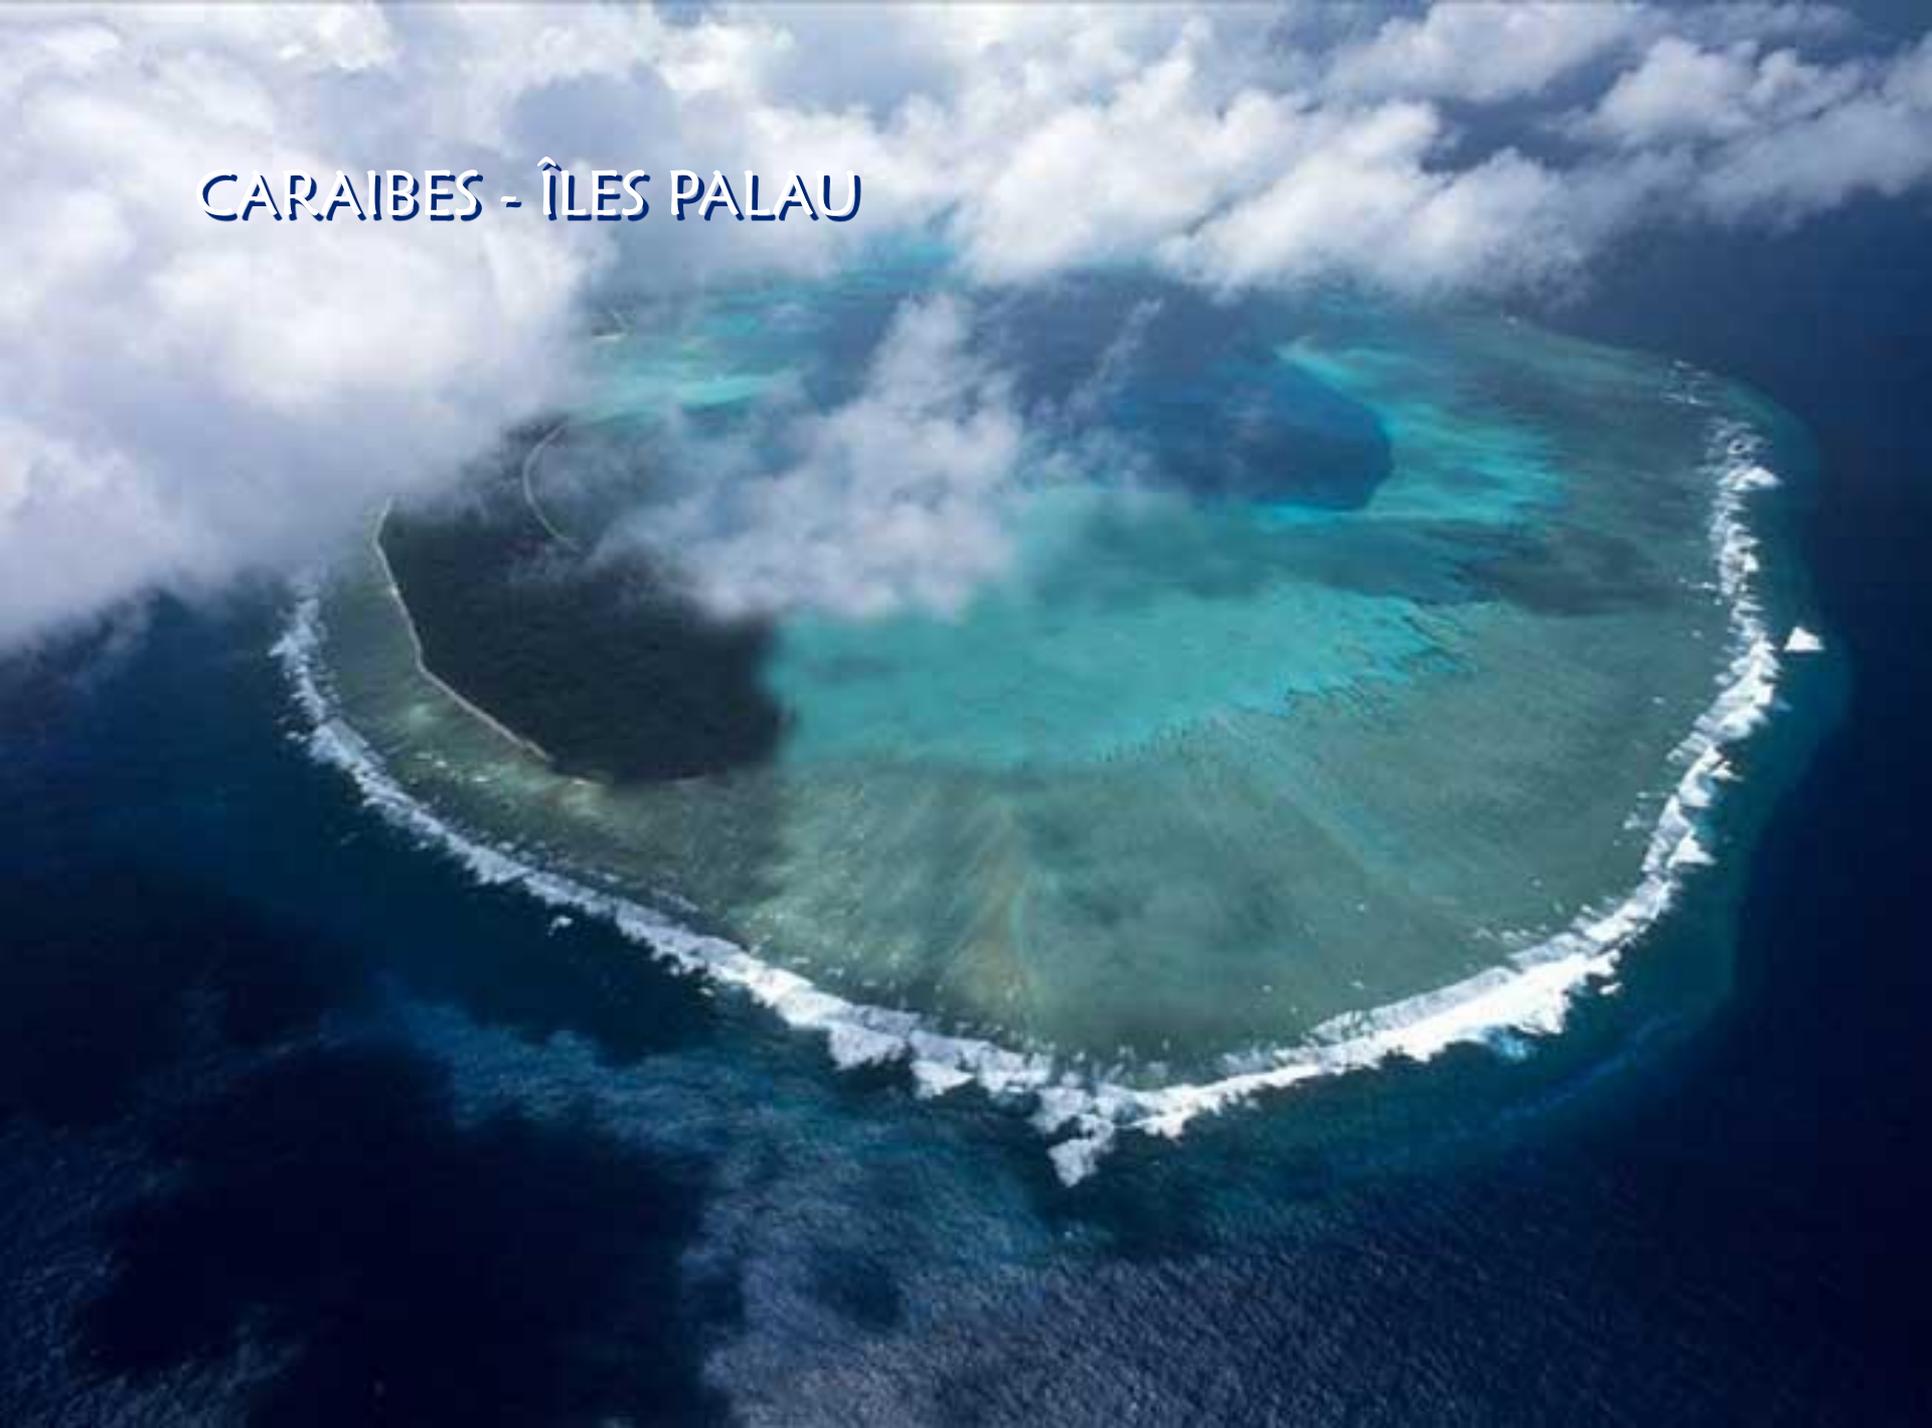

YELLOWSTONE - SHELL SPRING

VENISE - lagune

CARAIBES - ÎLES PALAU

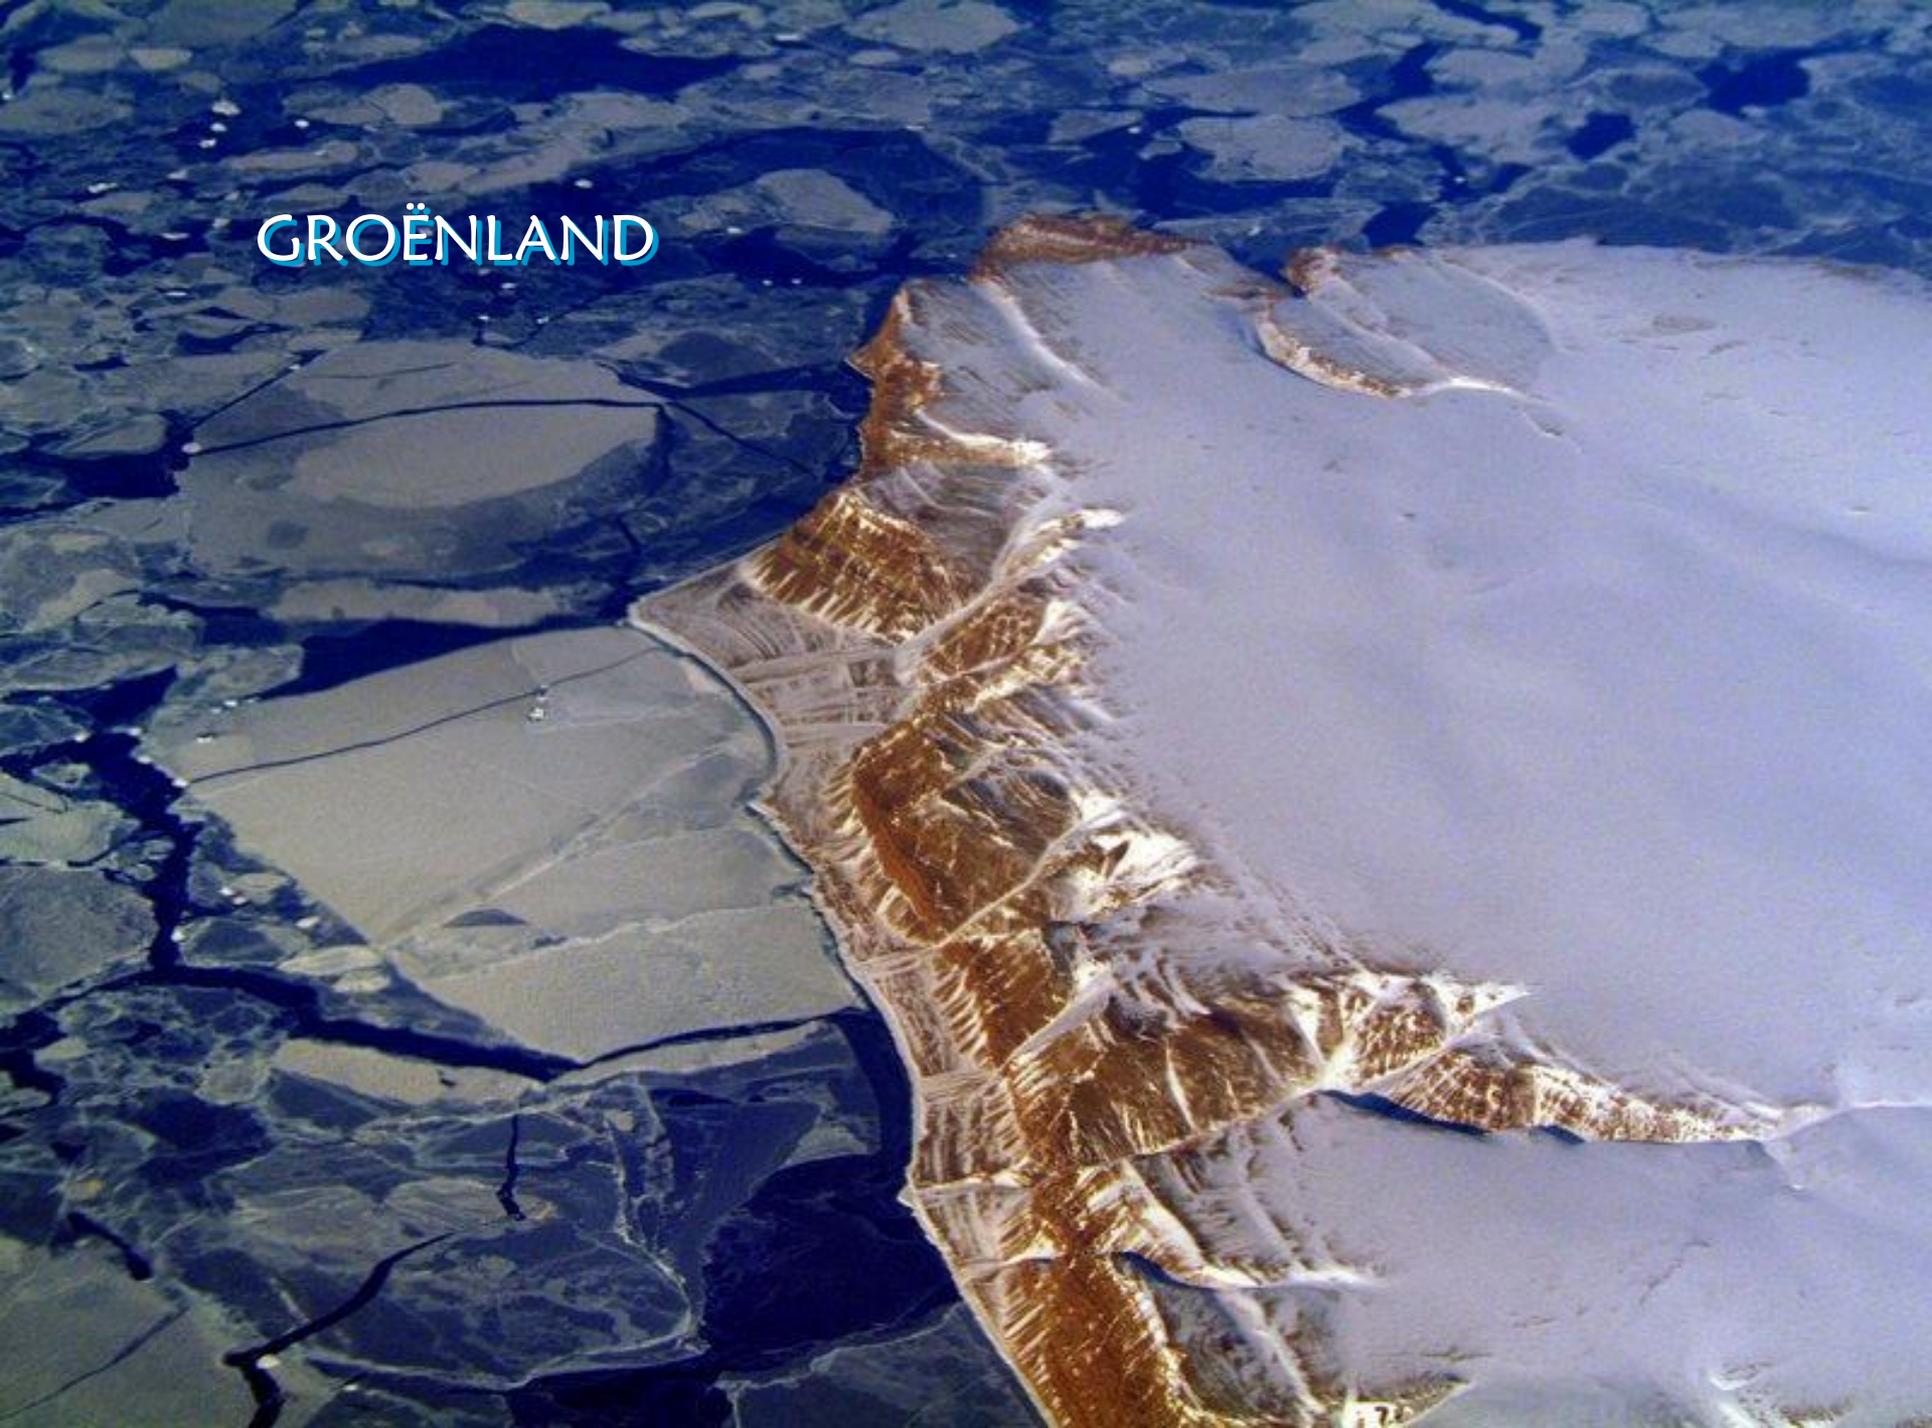

An aerial photograph of a desert landscape. In the foreground, a large, smooth sand dune stretches across the bottom half of the frame. The dune's surface is mostly uniform in color, with some subtle textures and shadows. In the background, a dark, irregularly shaped body of water is visible, possibly a lake or a reservoir. The water's surface is dark, and its edges are somewhat jagged. The sky above the water is filled with white, fluffy clouds, creating a stark contrast with the dark water. The overall scene is a mix of natural desert features and a man-made or natural water body.

EGYPTE - vent de sable

AUSTRALIE - PARC KAKADU

GROËNLAND

EQUATEUR - QUITO

MAROC - SEBKHET-ARIDAL

AUTRICHE - LAC FÜGEN

Lac Léman

ETATS UNIS - LAC POWEL

WHITE ISLAND - ancien cratère

GUATEMALA - PACAYA

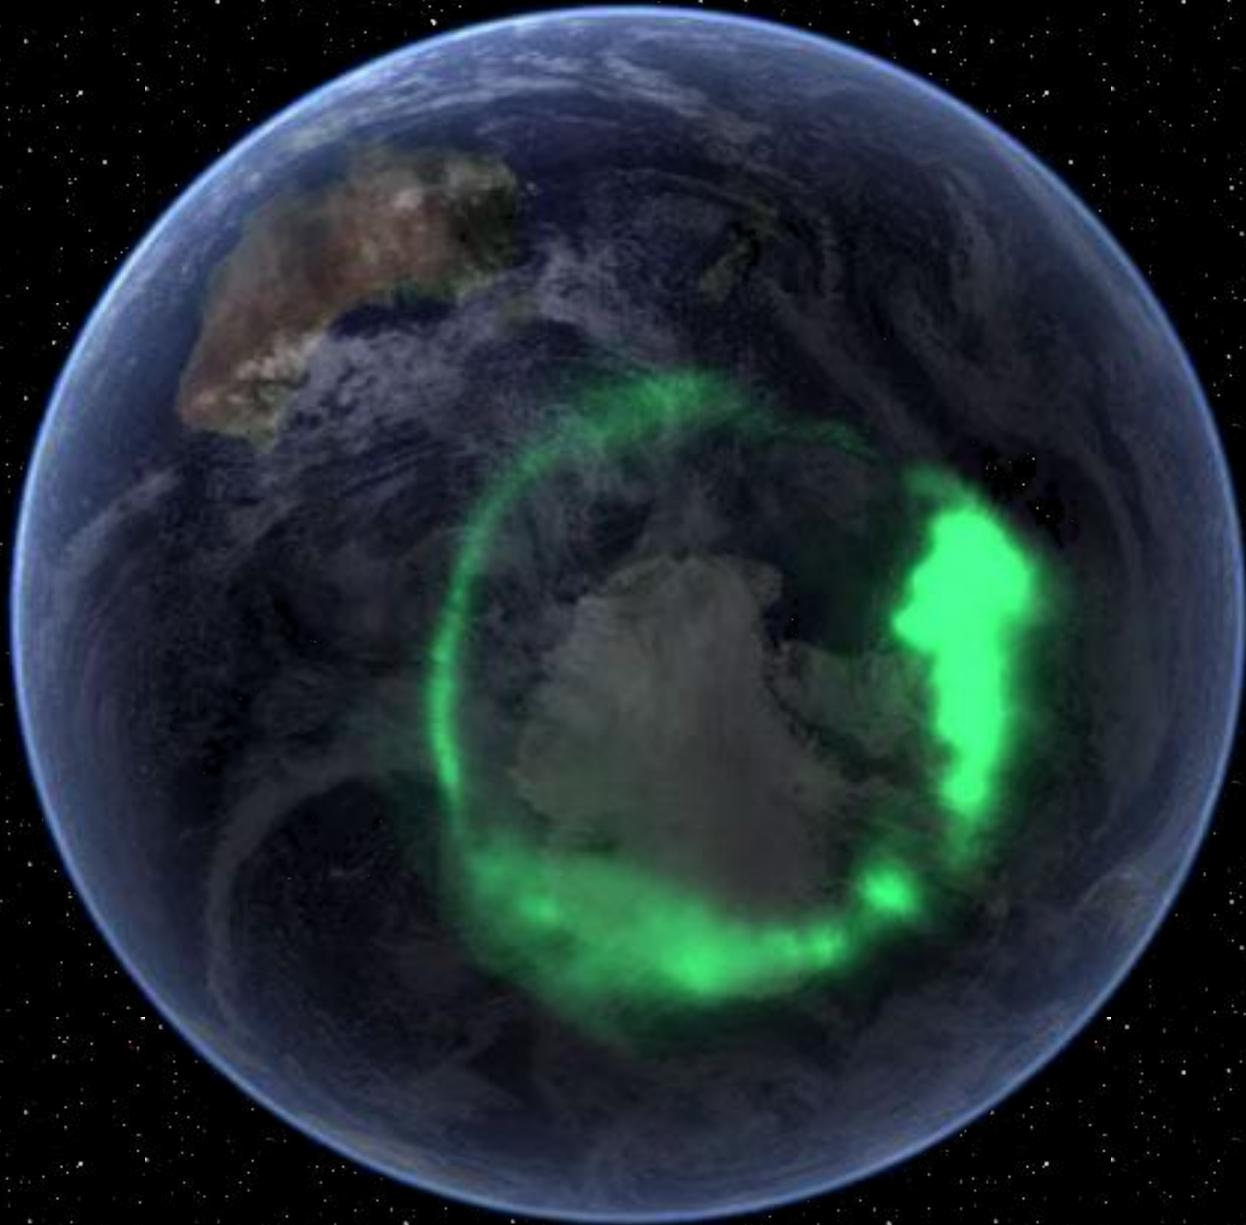

NOUVELLE CALEDONIE - NUAMI

ARCTIQUE

Une aurore boréale sur l'ARCTIQUE

LUMIERES DE LA NUIT

Puis le jour se lève ..

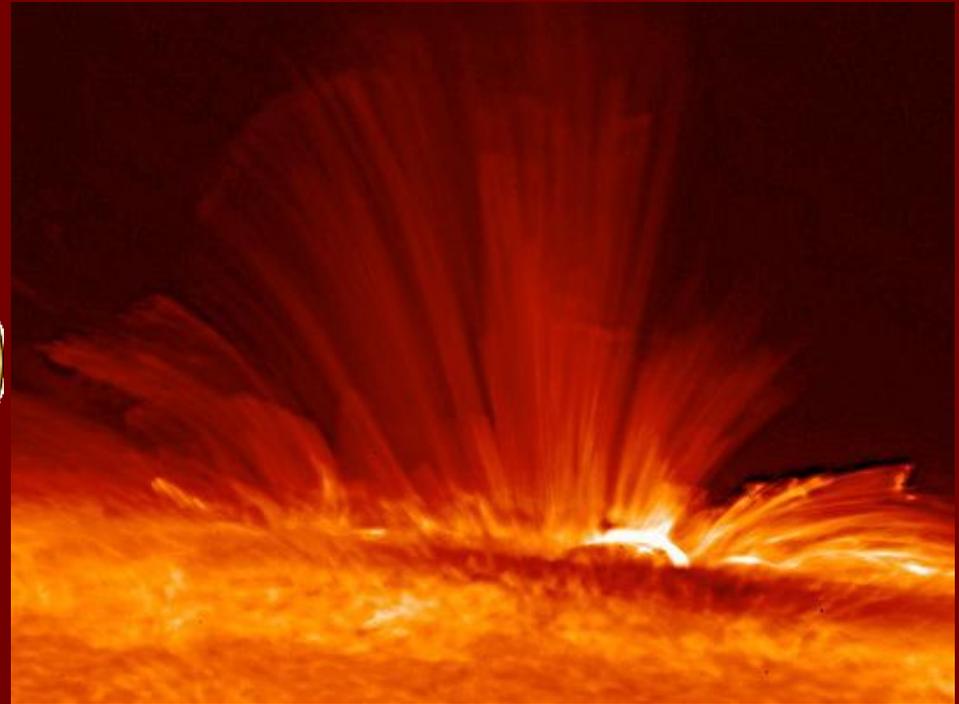

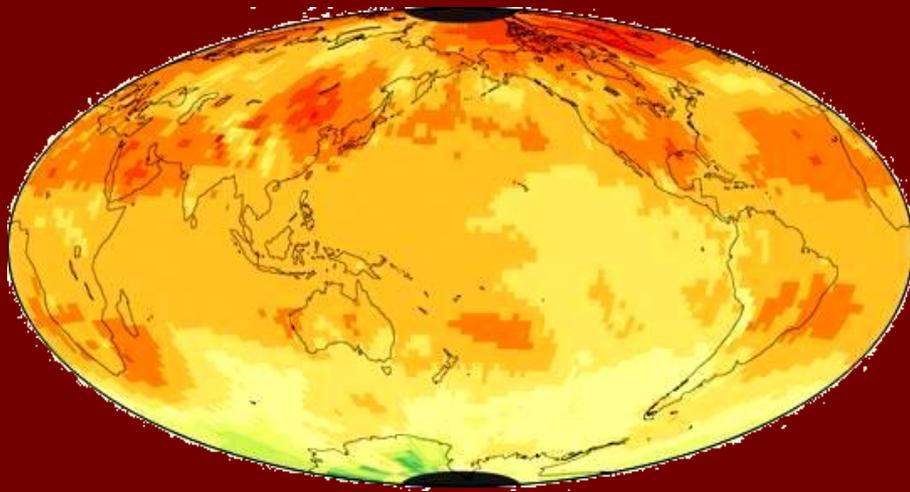

ADMIRABLE, notre planète bleue !

Préservez-la, ne la détruisez pas..

Avant qu'elle ne devienne désert ou explosion de feu..

Laissons un bel héritage à nos enfants..

La terre entière est notre maison.

Mais la beauté de la terre se crée elle-même, à chaque minute.

RESTONS VIGILANTS

La vie du présent tisse celle de l'avenir

A.L.
