

# 94 years old - Caught in Customs !

Author unknown – forwarded by Huỳnh Tấn Tài Yersin 65

Here you have a 94-year-old Mexican national, just simply on her way to visit her friends and relatives across the International border in Arizona, all the while passing through the port of entry at Nogales, Arizona, several days per week!

After all, she's 94 years old, so what harm could this poor innocent little Mexican Grandma do?

Well, I'll be dipped!

What's all that padded stuff affixed to her body, underneath her dress? (Gee-Wiz, could that be some "contraband"?)

Why it's 10.45 pounds of marijuana, strapped to her body! Can we blame her? After all, she's probably just supplementing her United States SSI check that she picks up monthly at her P.O. box on the American side.

Don't expect to have the media air this one. They're too busy trying to tell us to give amnesty to all illegals. It's just another very good argument to enforce the safety of our borders!
