Combien de molaires possédons-nous ?

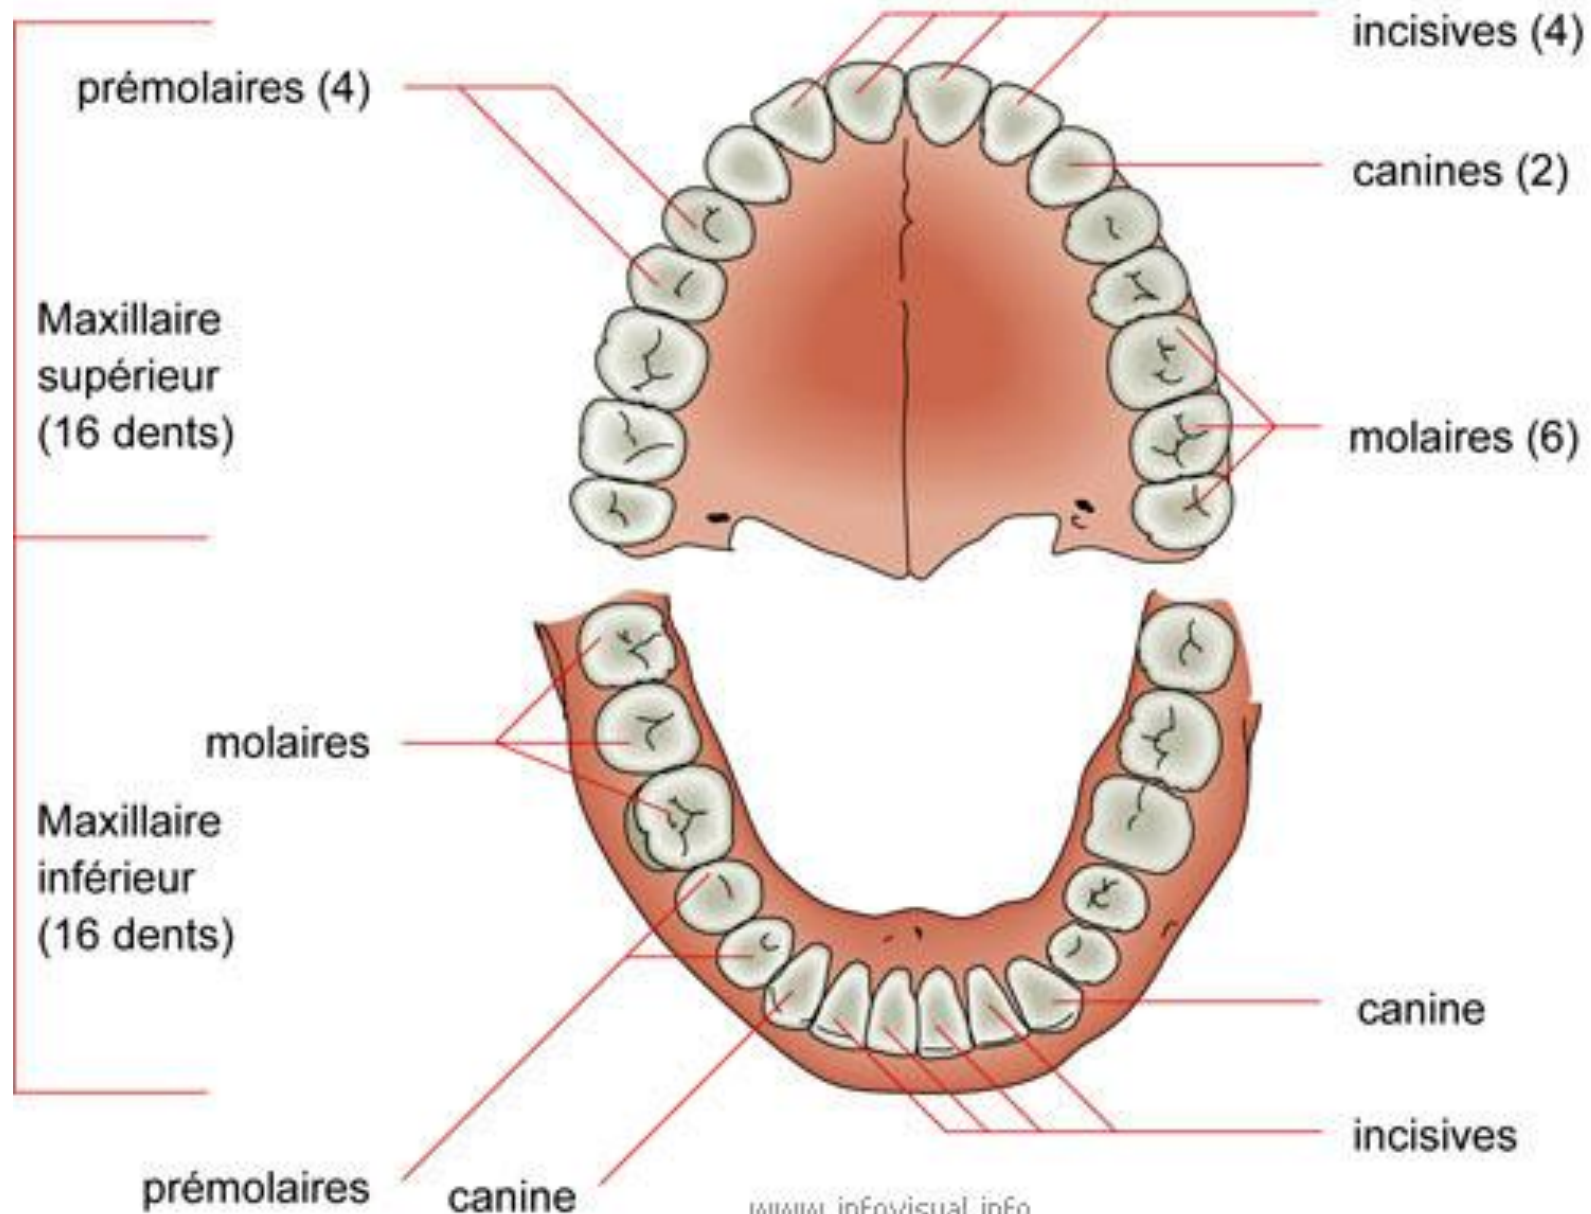

www.infovisual.info

8

12

16

ARCADE DENTAIRE ADULTE

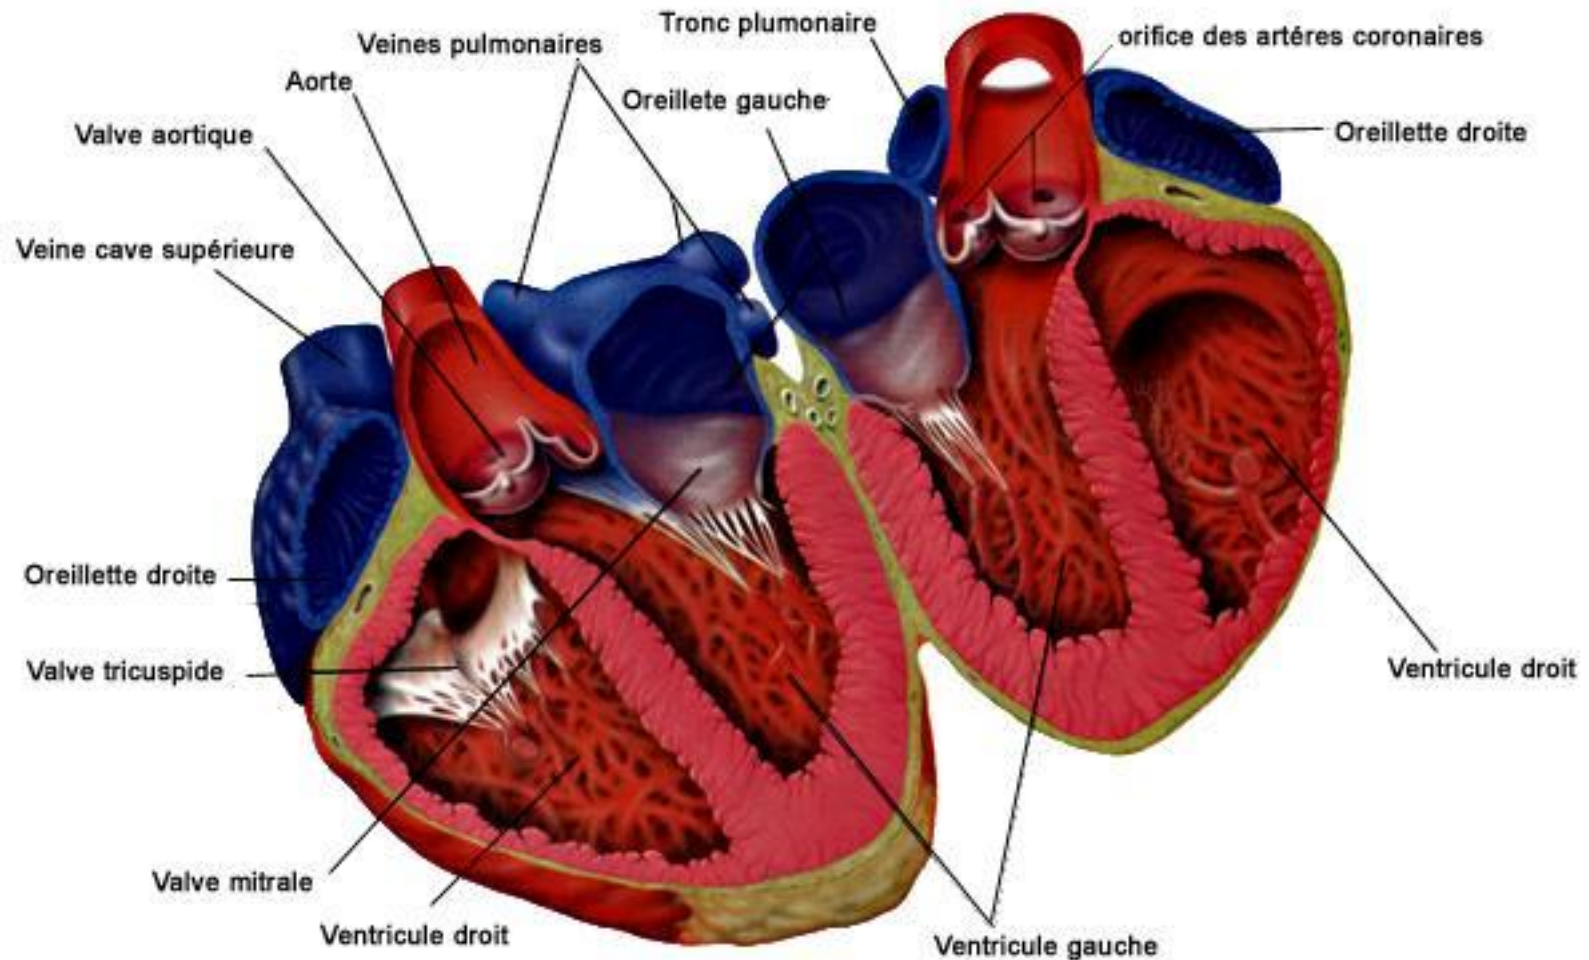

Quel est cet organe ?

Cœur

Foie

Poumon

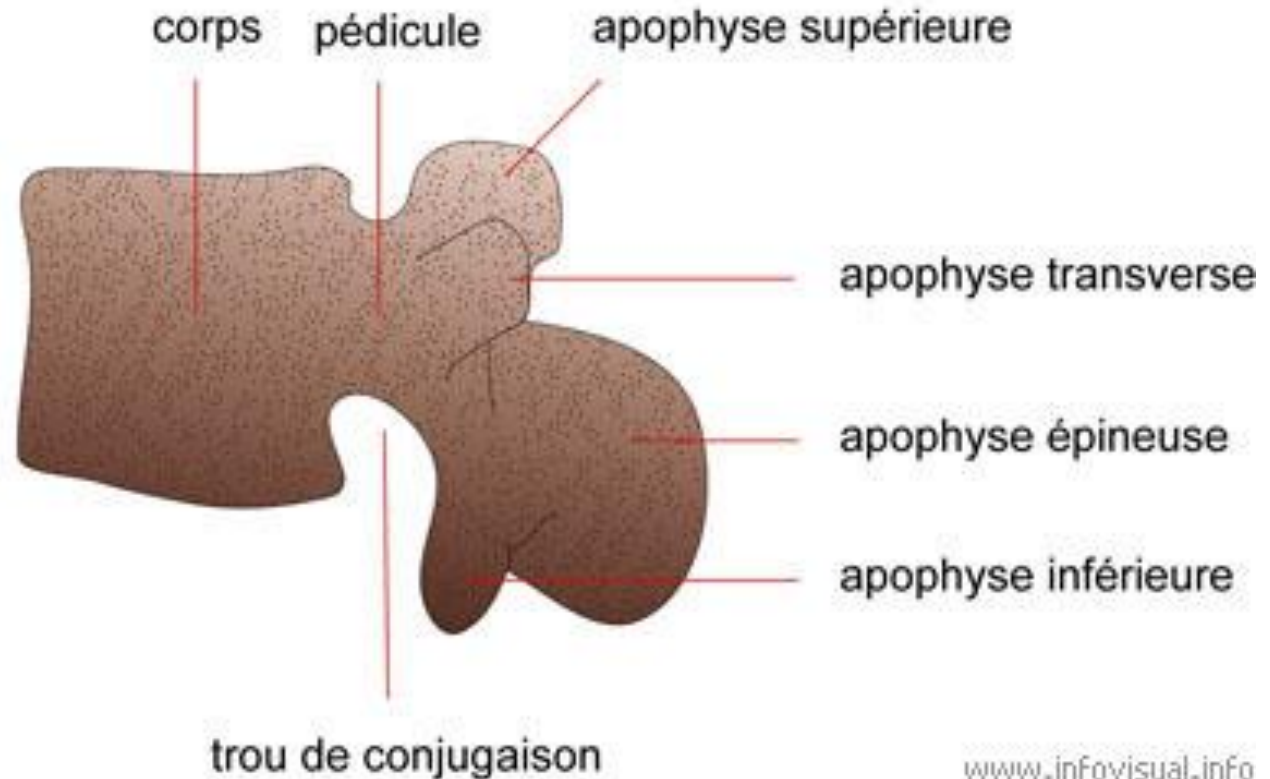

Quel est cet os ?

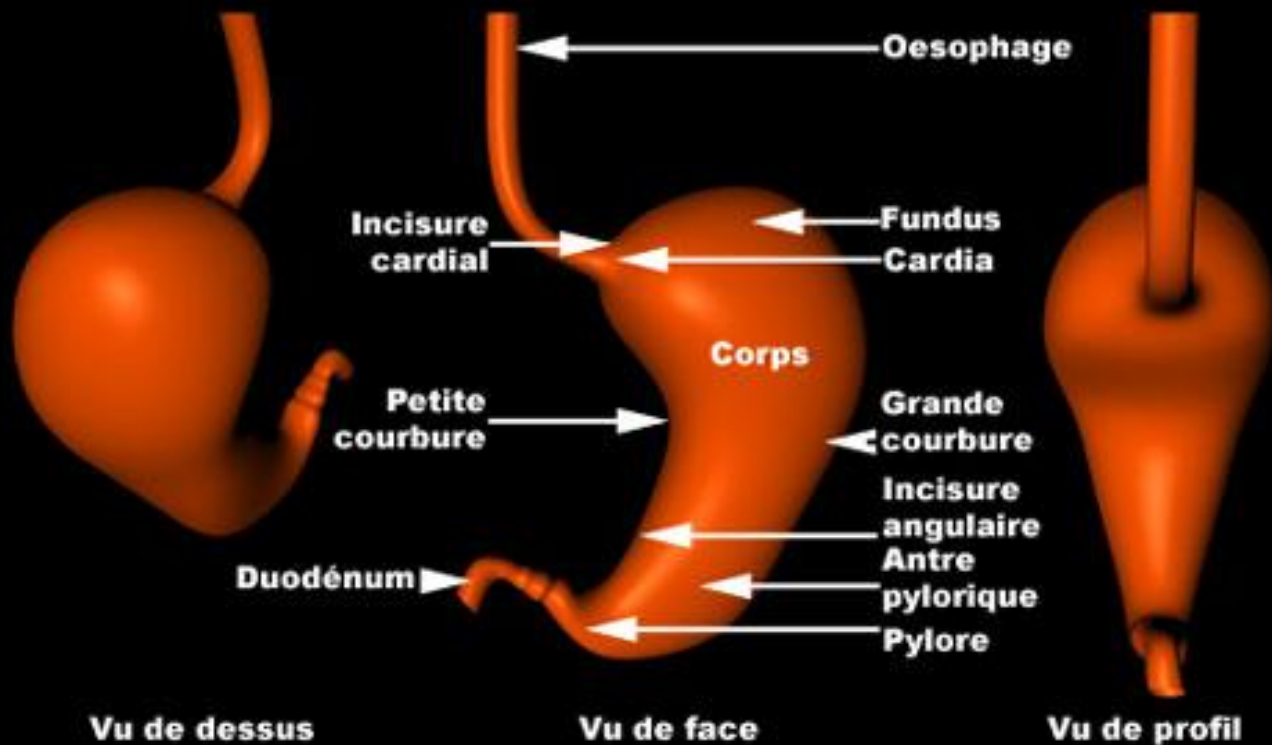

Clavicule

Rotule

Vertèbre

Quel est cet organe ?

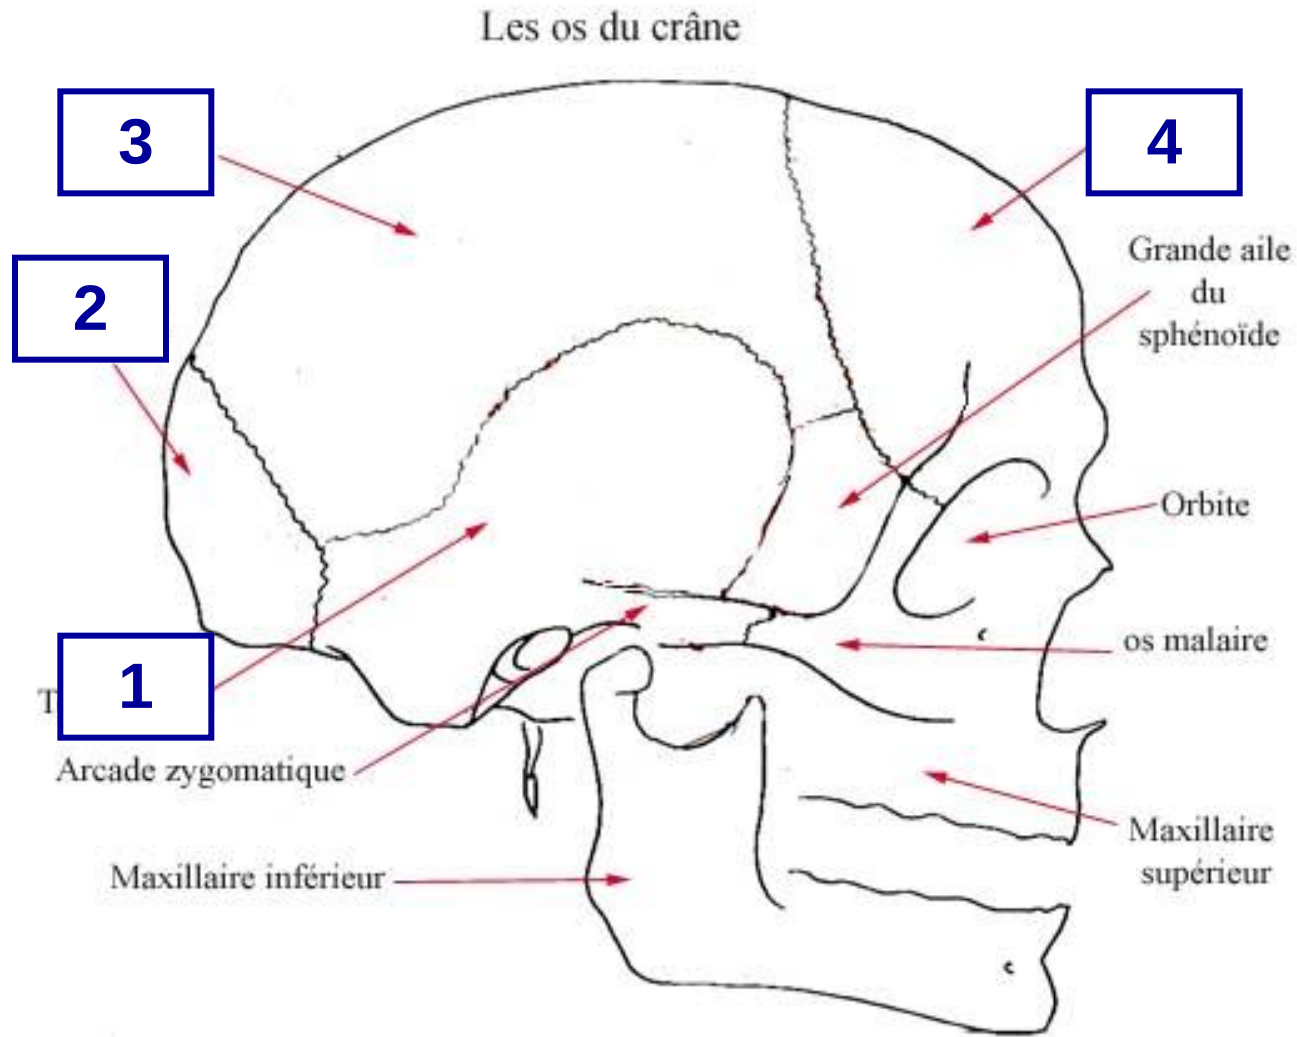

Estomac

Foie

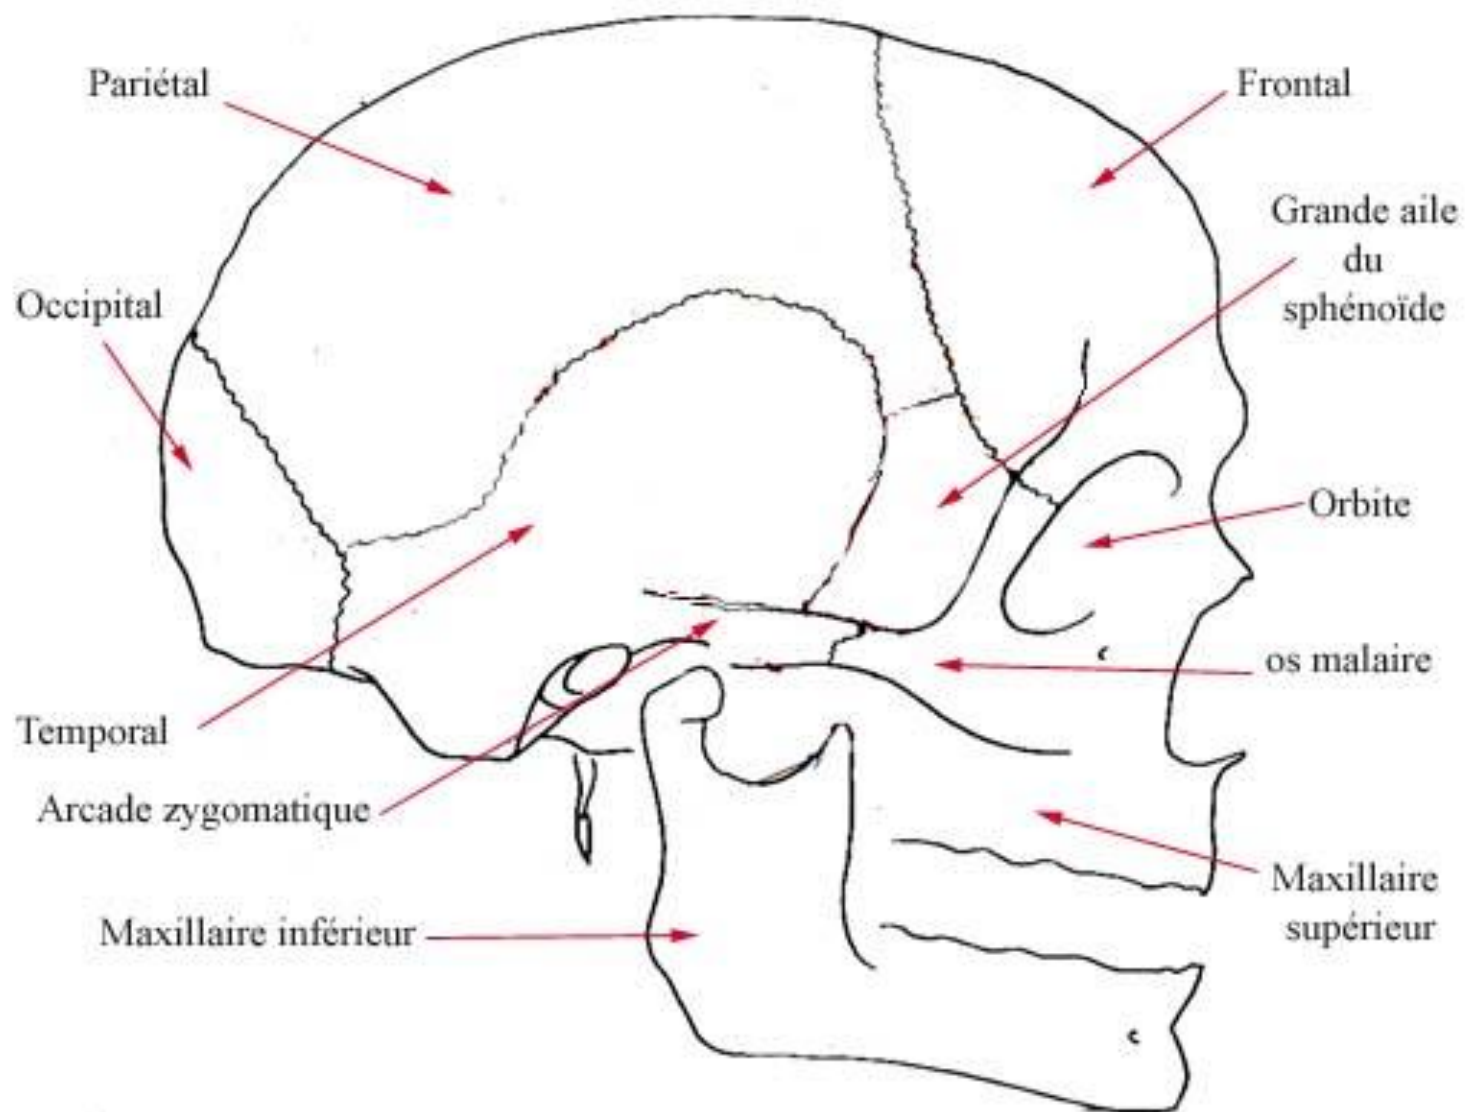

Rate

Vessie

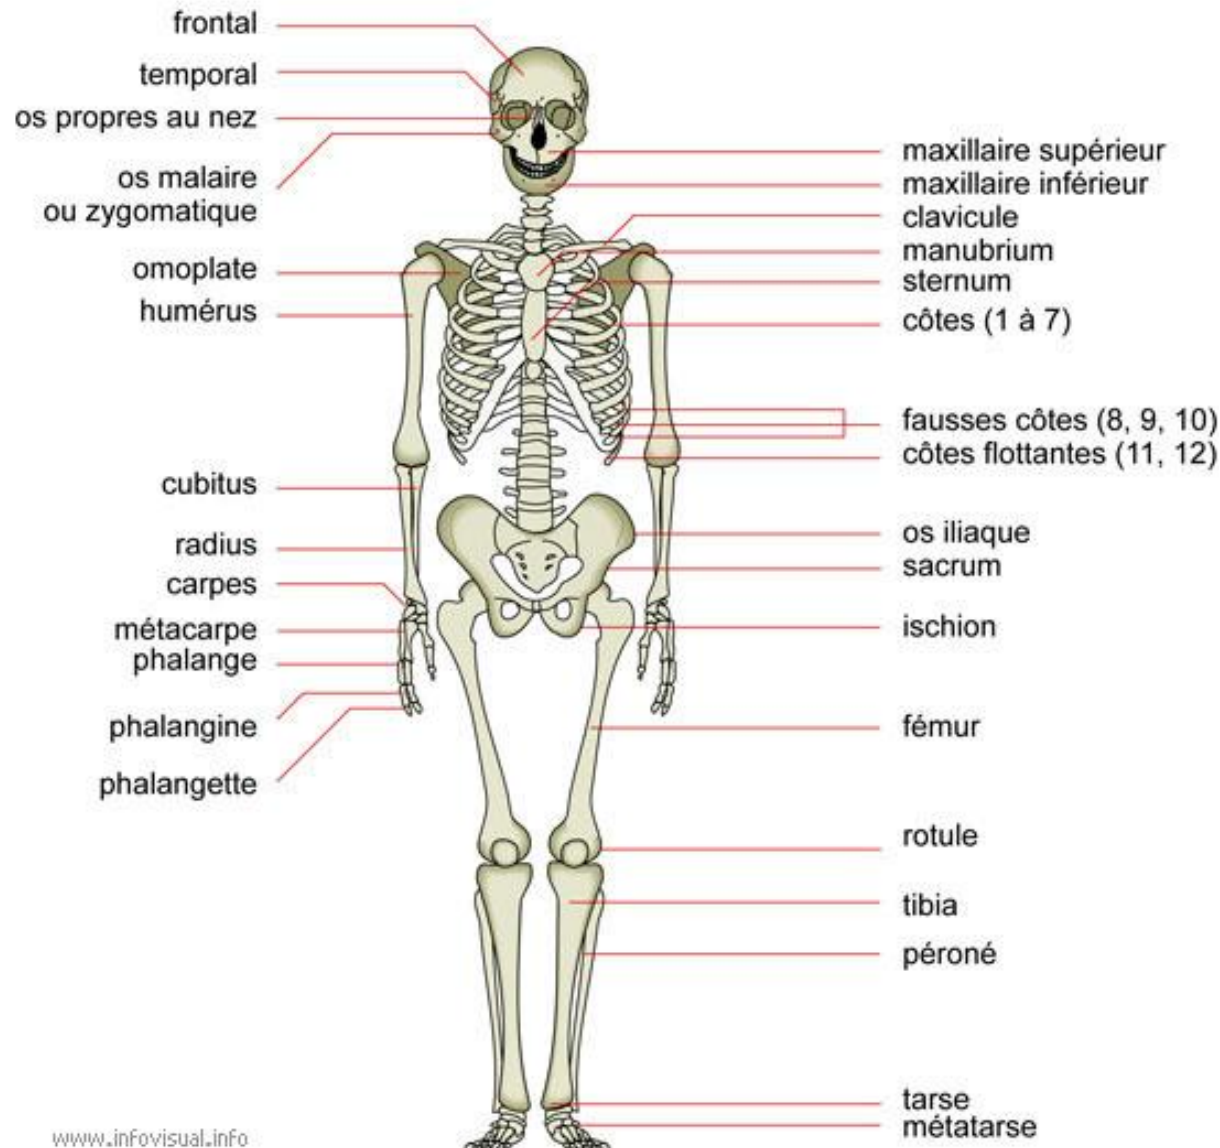

Où se trouve l'os pariétal ?

Les os du crâne

Combien d'os comporte notre squelette ?

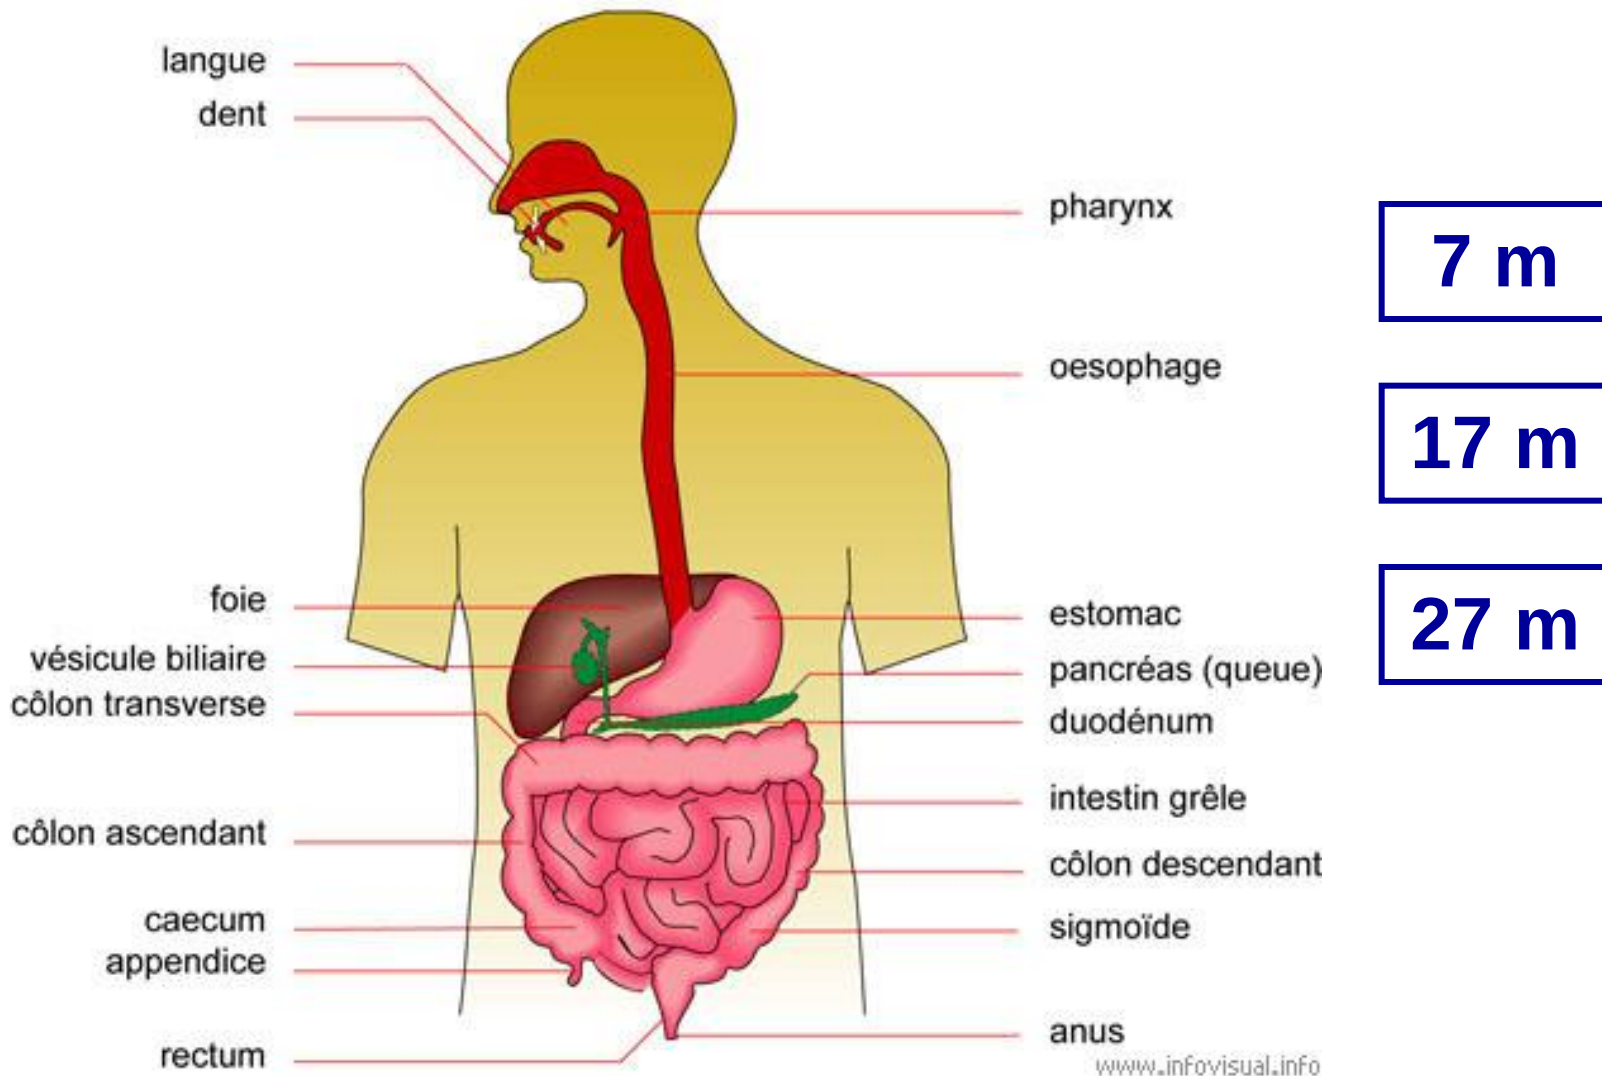

156

206

256

Quelle est la longueur moyenne de l'intestin grêle ?

**Quelle est la croissance
moyenne des cheveux ?**

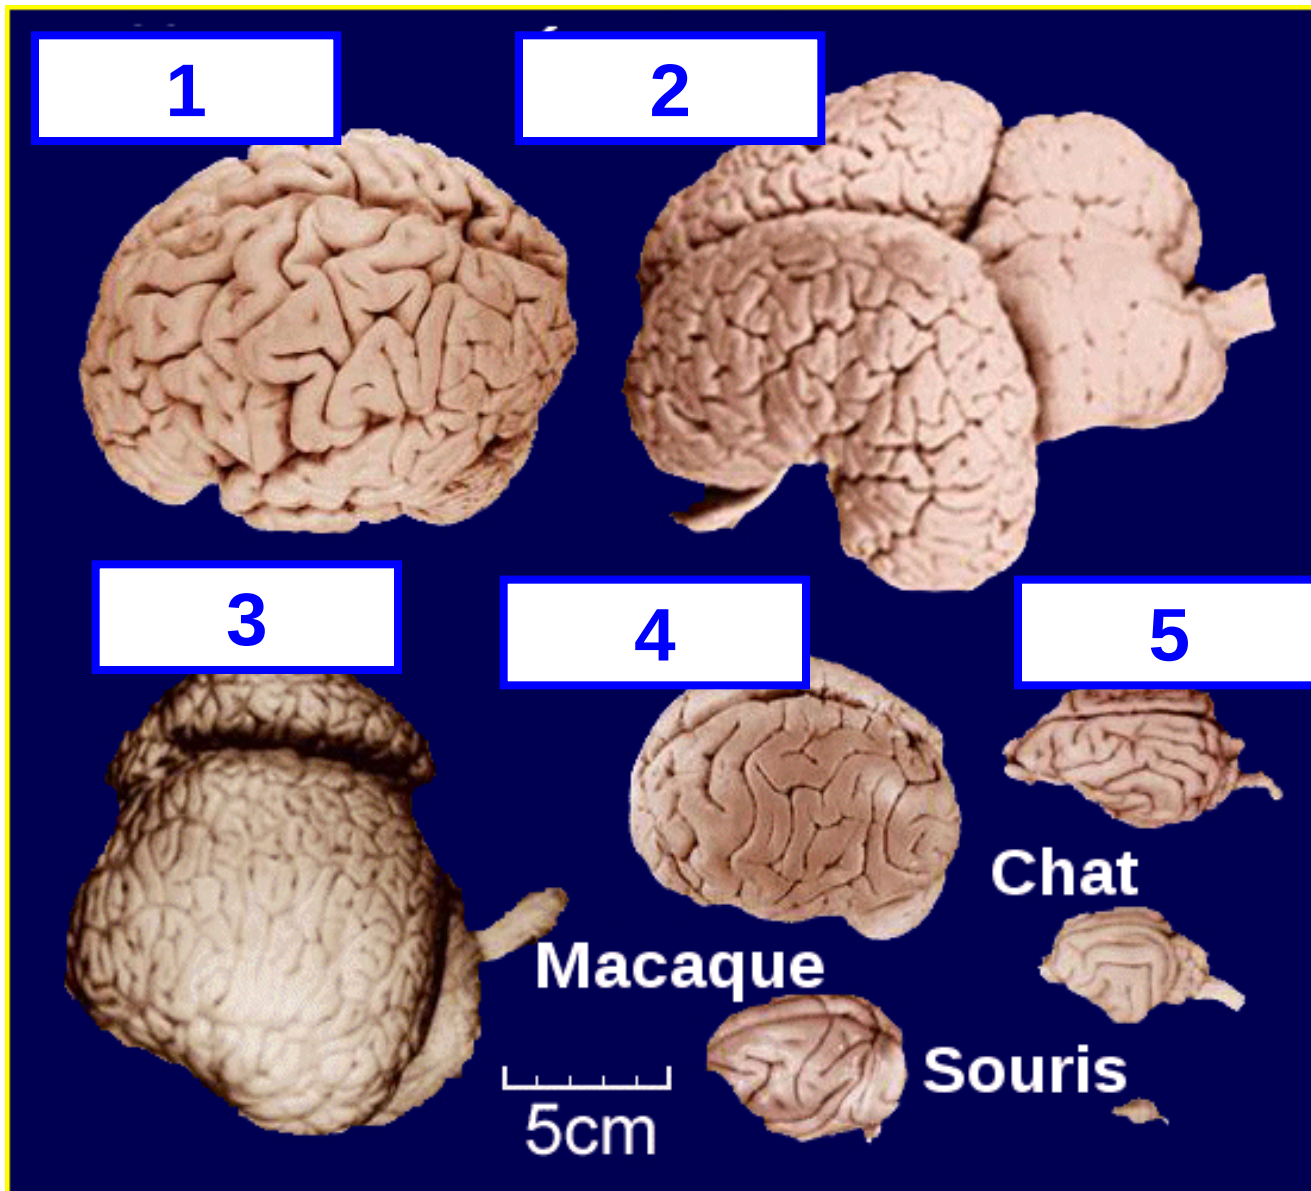

1 mm par mois

5 mm par mois

1 cm par mois

2 cm par mois

Où est le cerveau humain ?

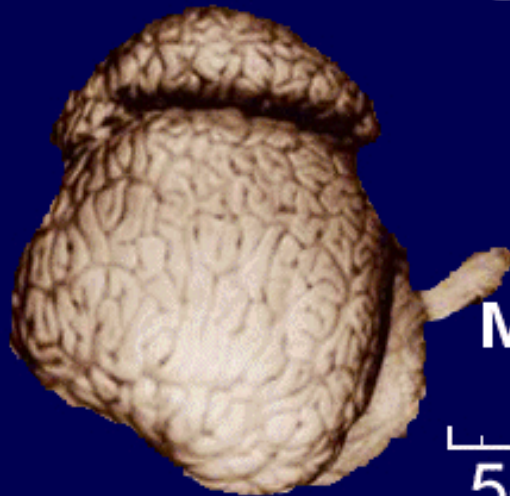

Humain

Éléphant

Dauphin

Gorille

Chien

Chat

Macaque

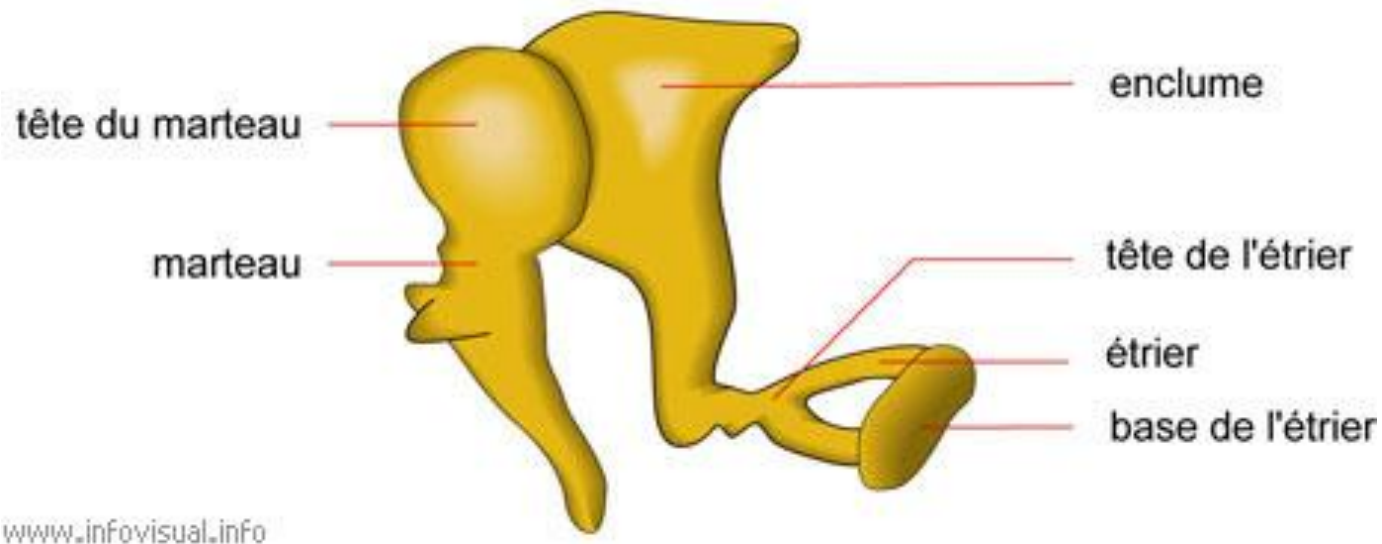

Souris

5cm

Où se trouvent ces osselets ?

Clavicule

Main

Oreille

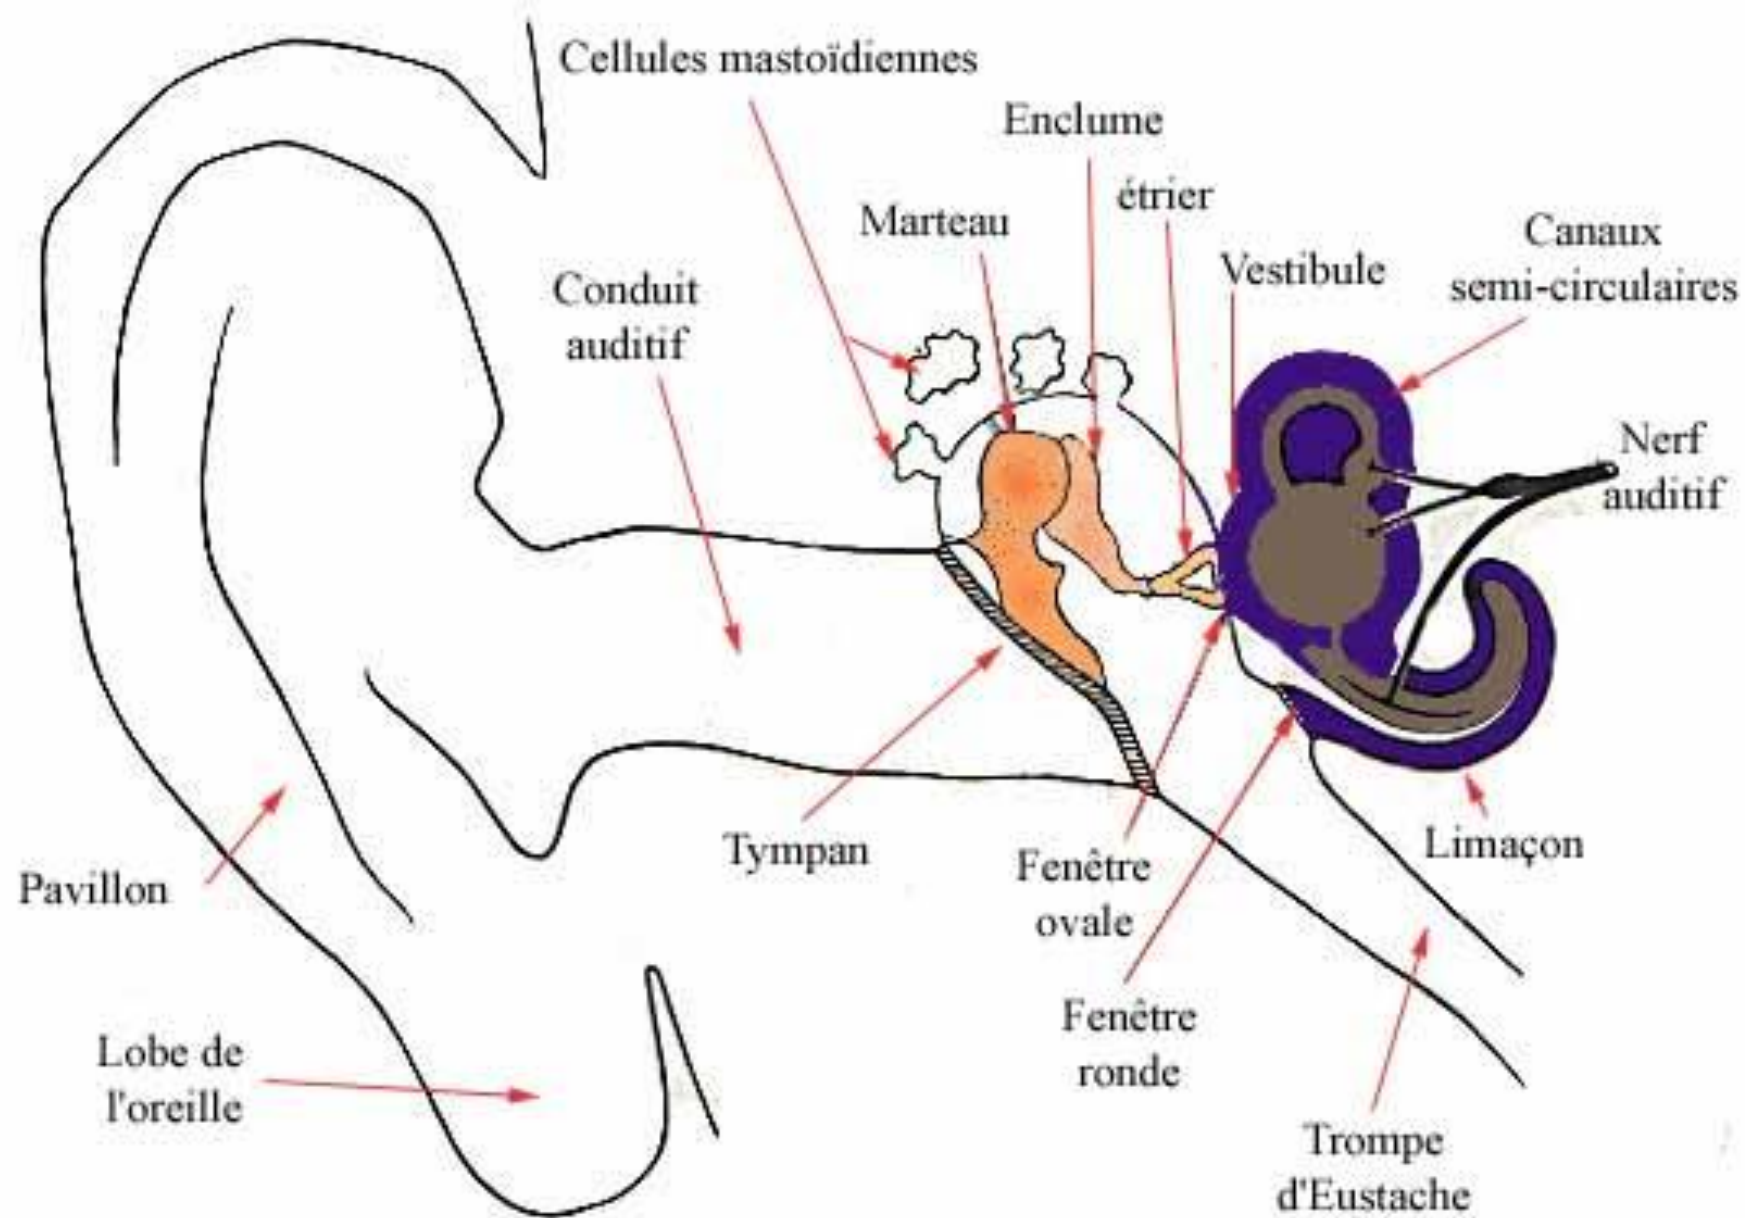

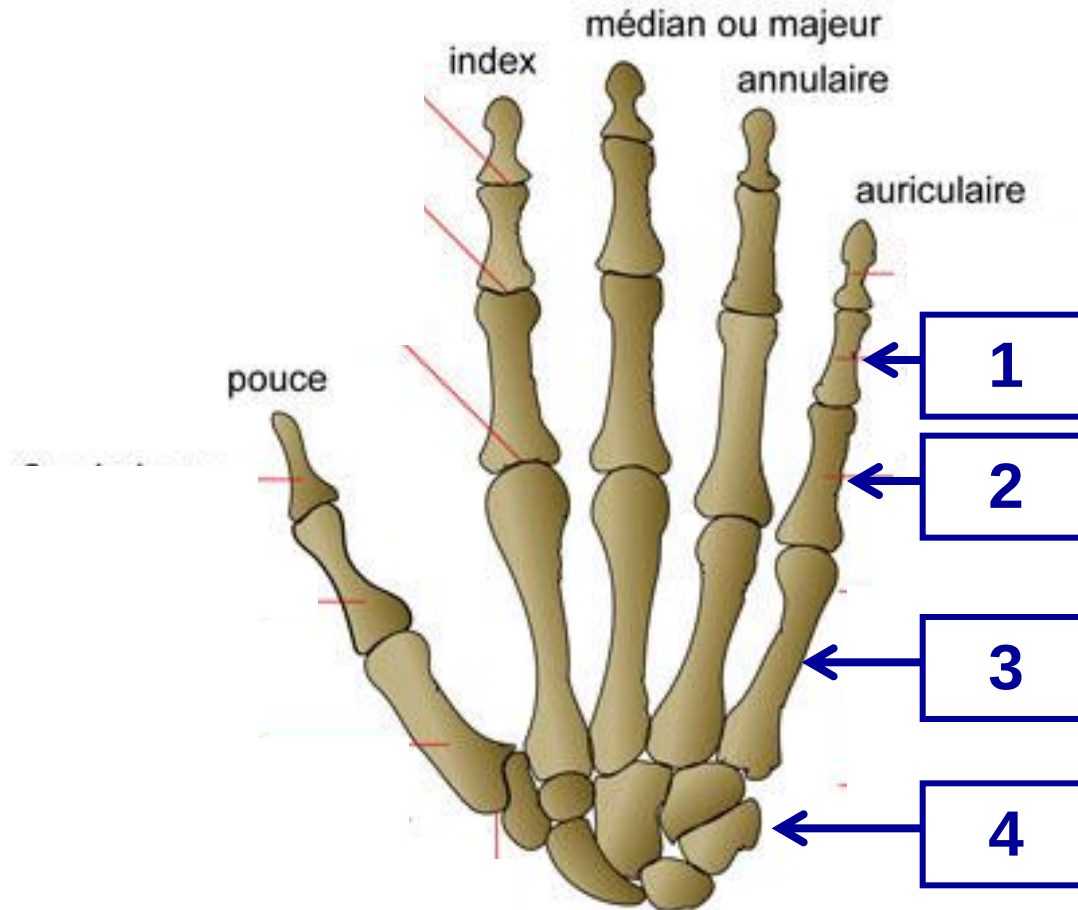

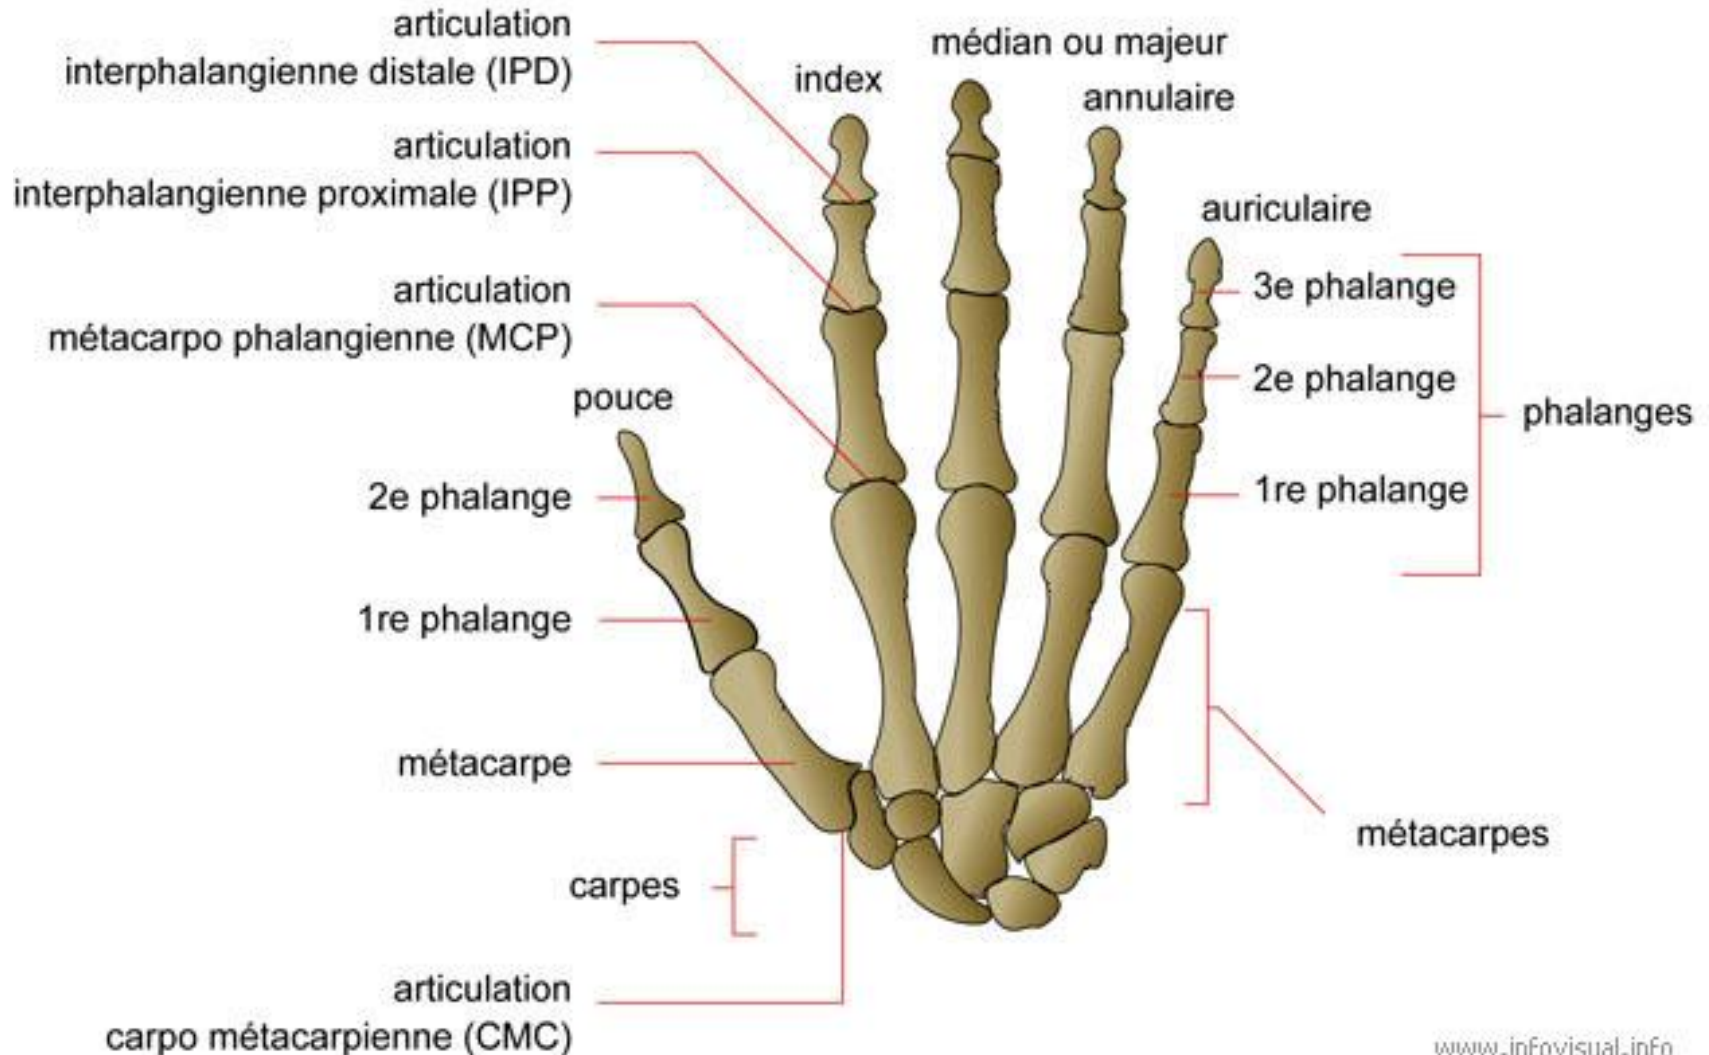

Figure 1

Où se trouve le métacarpe ?

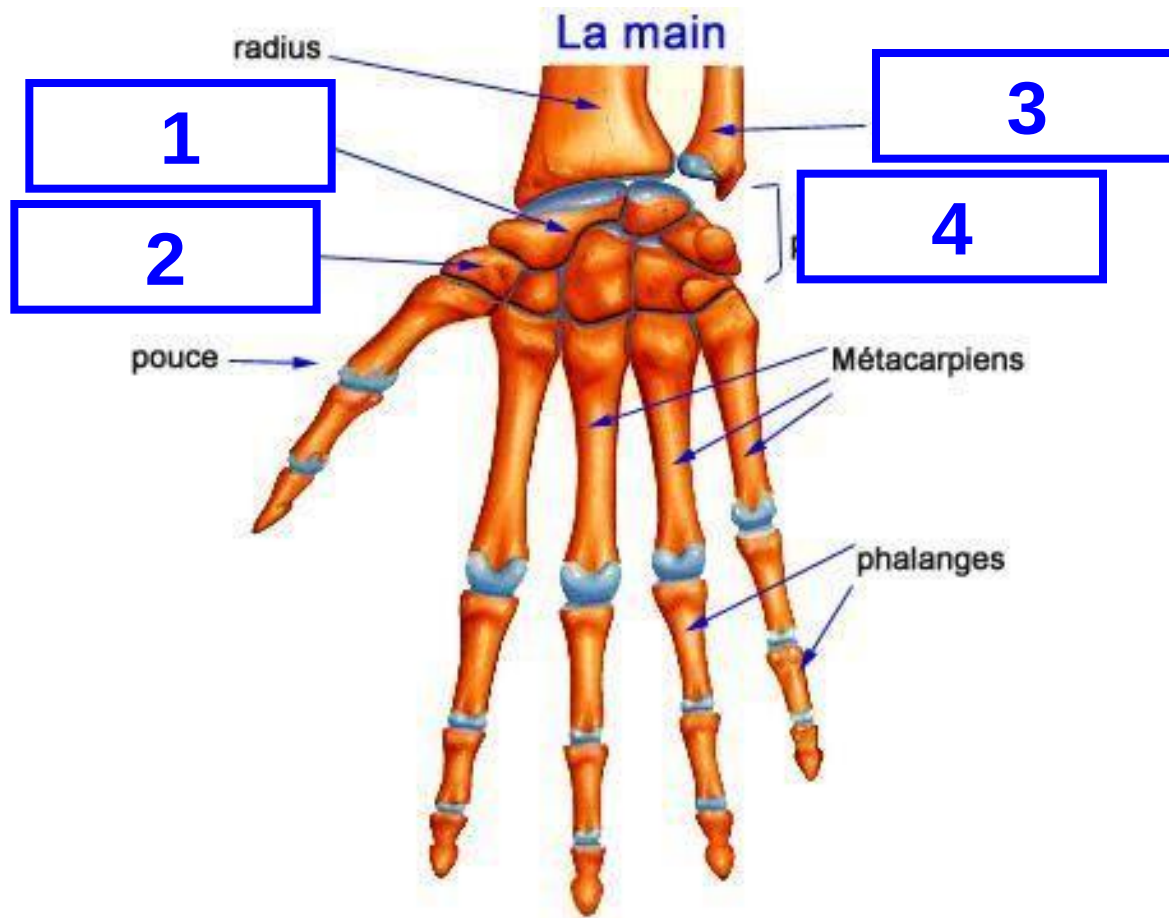

OS DE LA MAIN (vue dorsale)

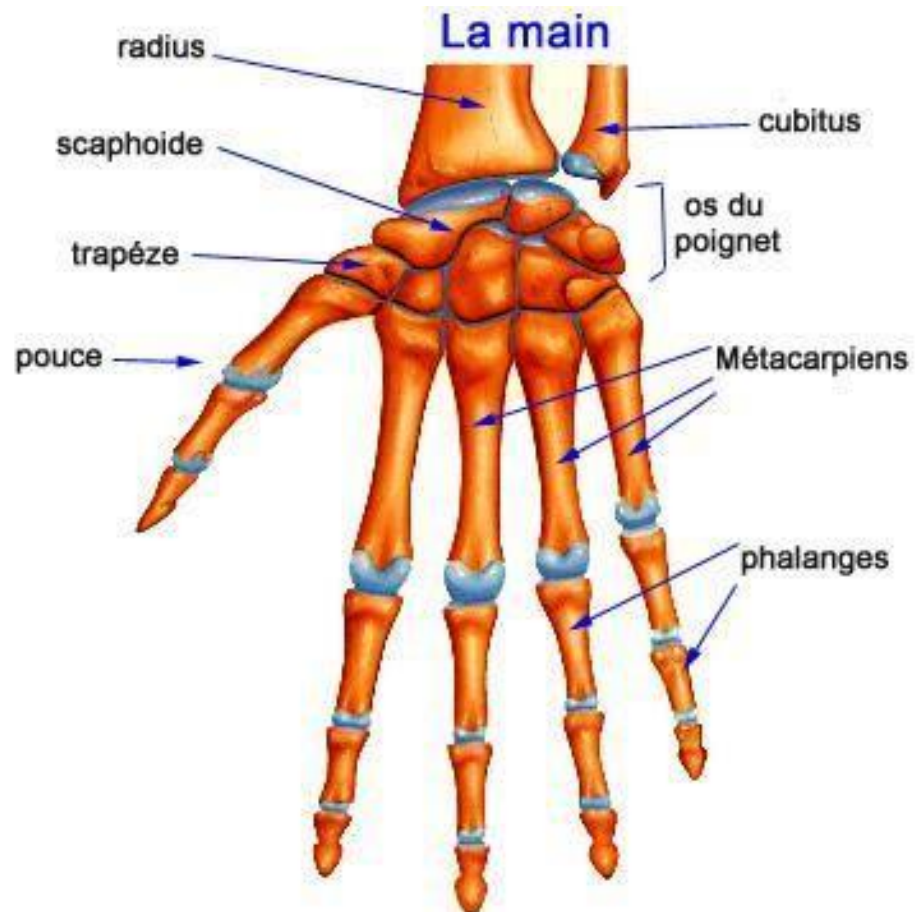

OS DE LA MAIN (vue dorsale)

Où se trouve le scaphoïde ?

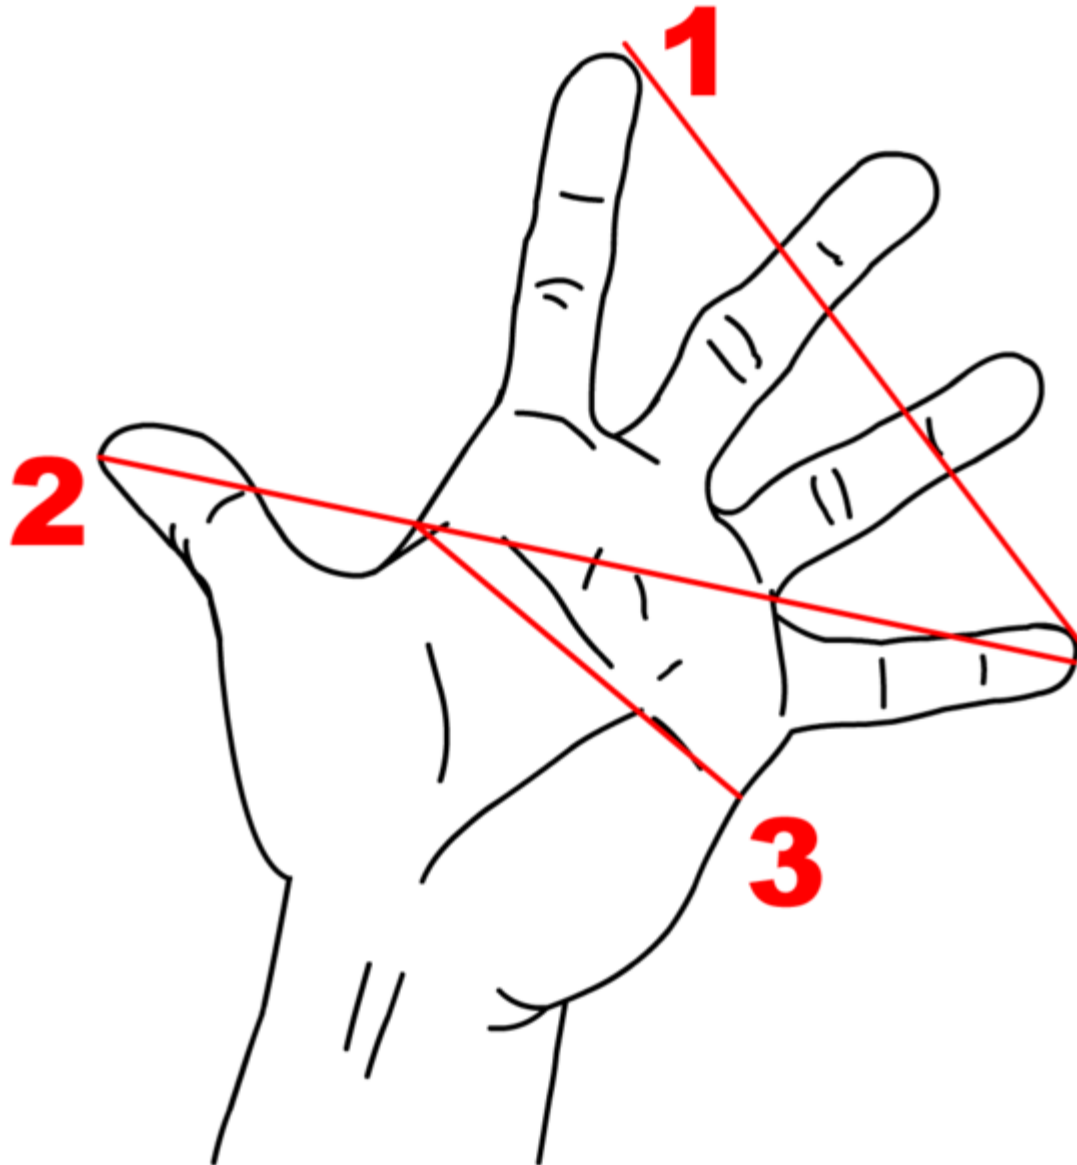

De quel genre est le mot « mandibule » ?

Masculin

Féminin

Quelle est la mesure de l'empan ?

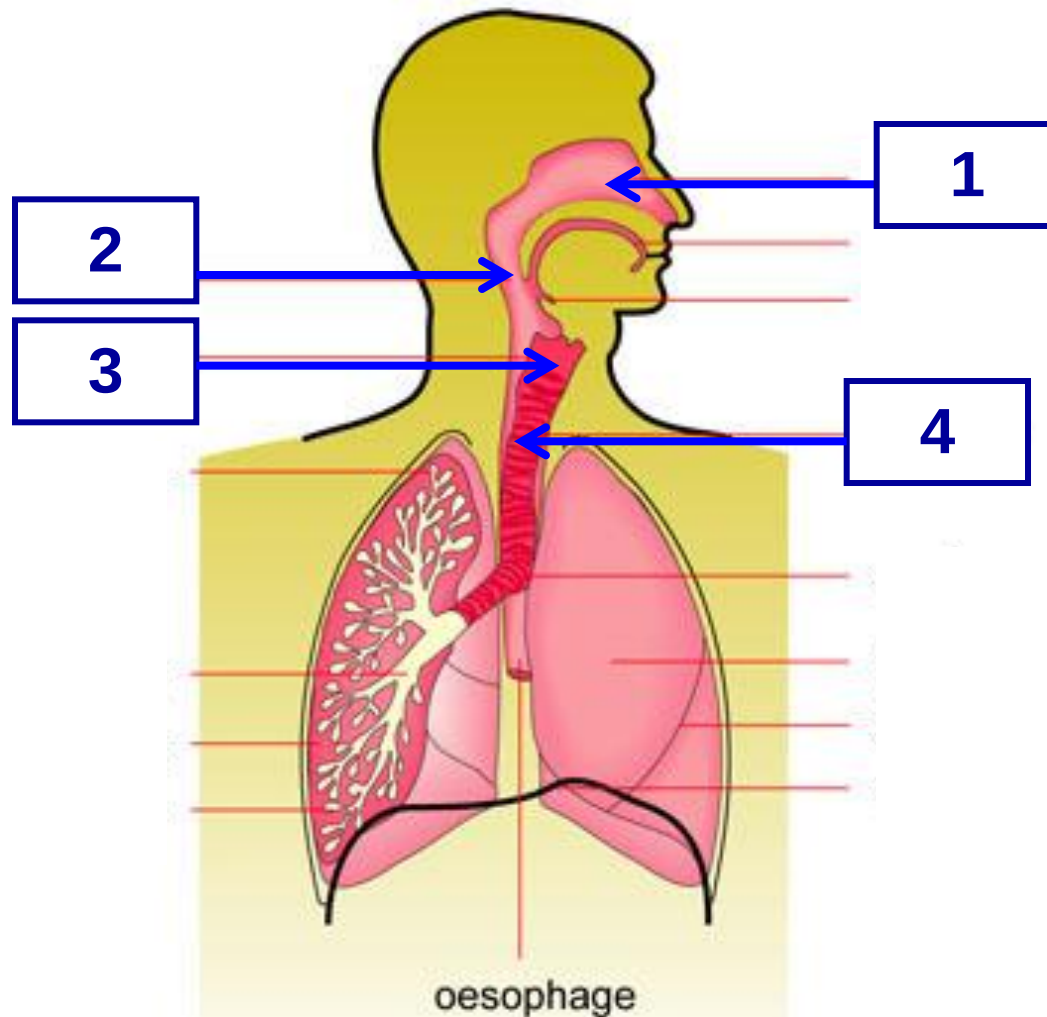

1

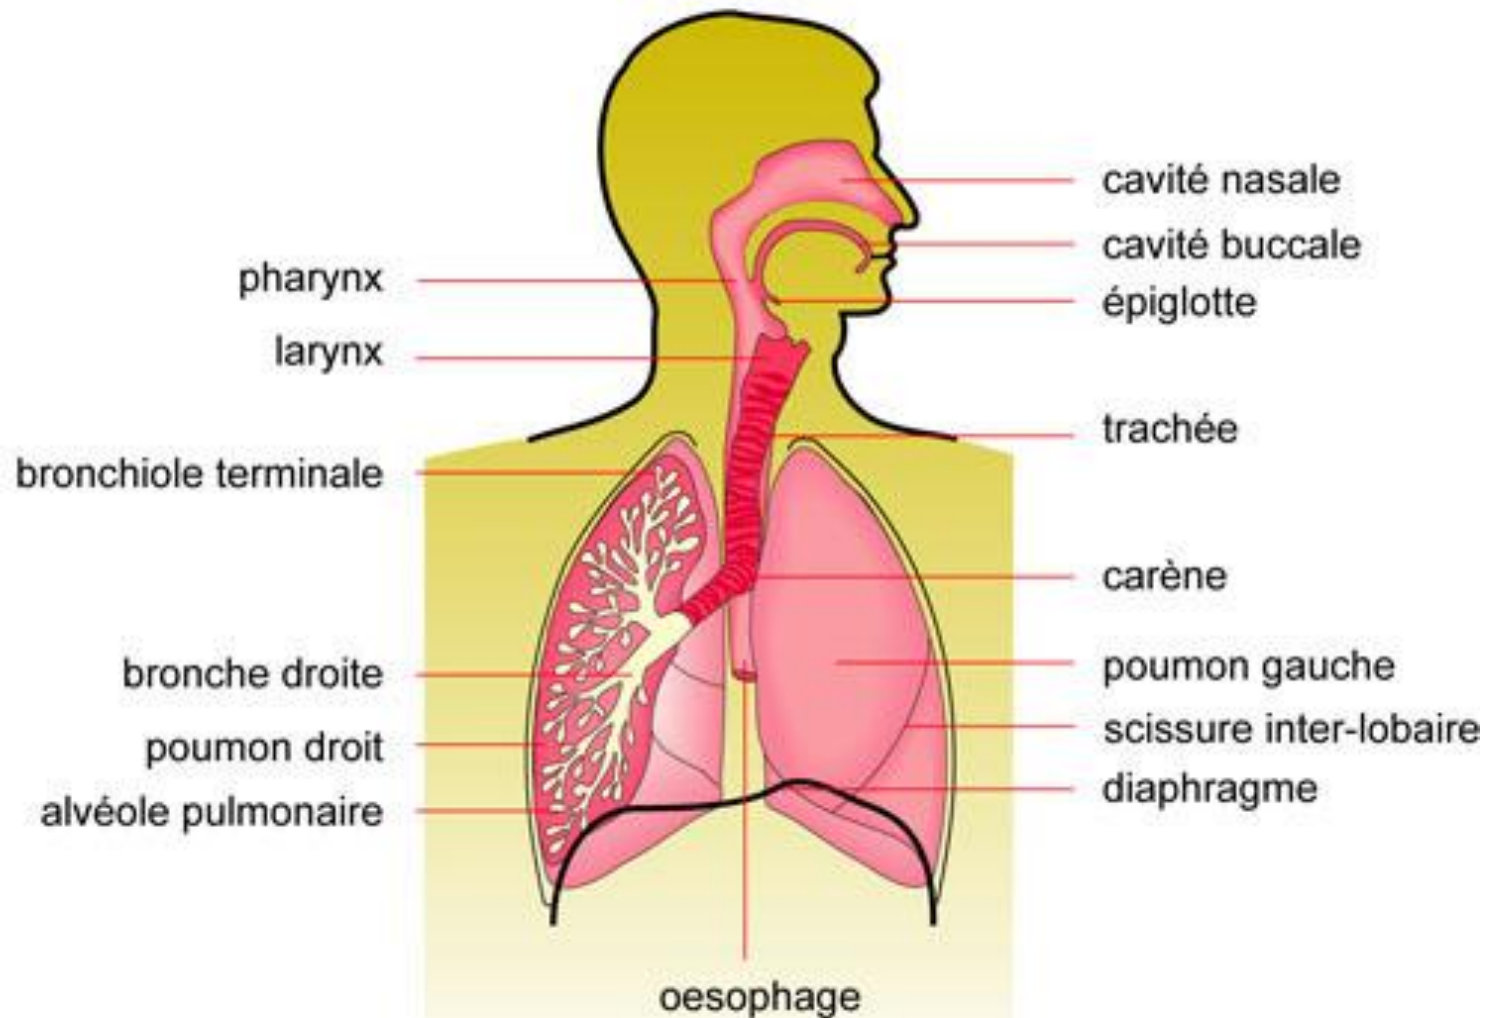

2

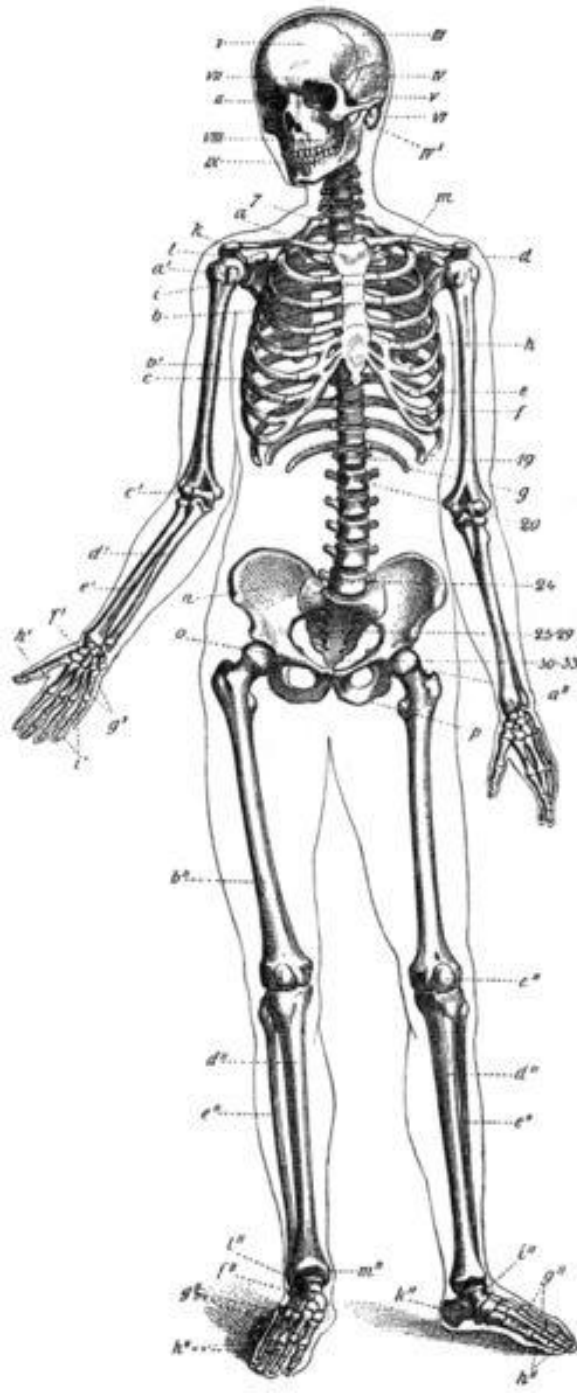

3

Où se trouve le pharynx ?

APPAREIL RESPIRATOIRE

**Combien de côtes
possédons-nous ?**

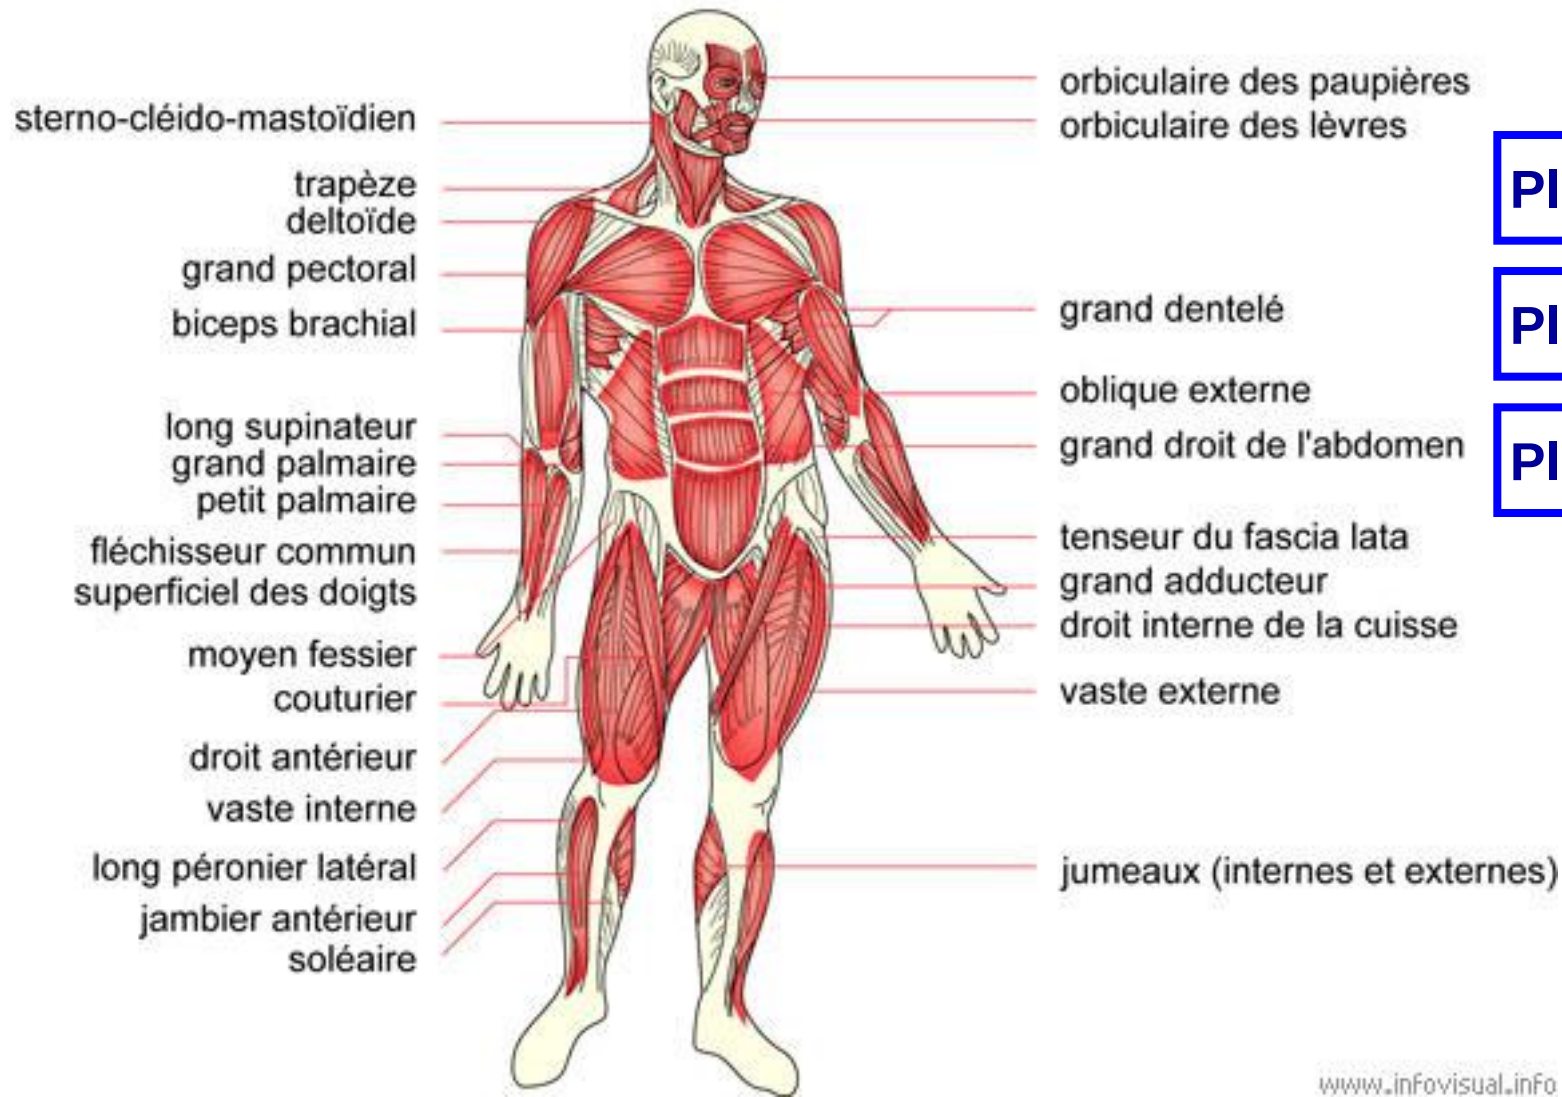

8 paires

10 paires

12 paires

Combien de muscles comporte le corps humain ?

MUSCLES (vue antérieure)

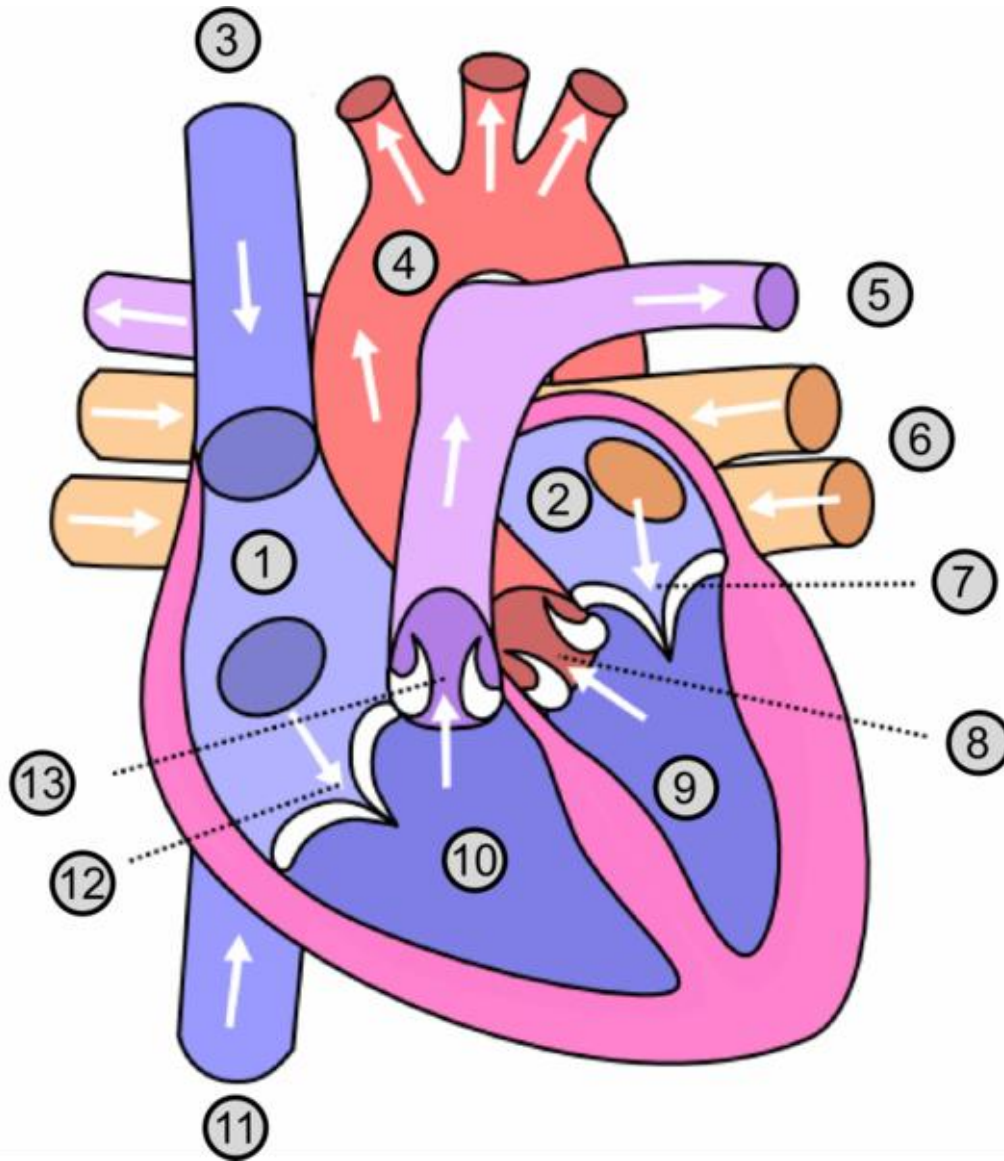

Plus de 450

Plus de 650

Plus de 850

Où se trouve le ventricule droit ?

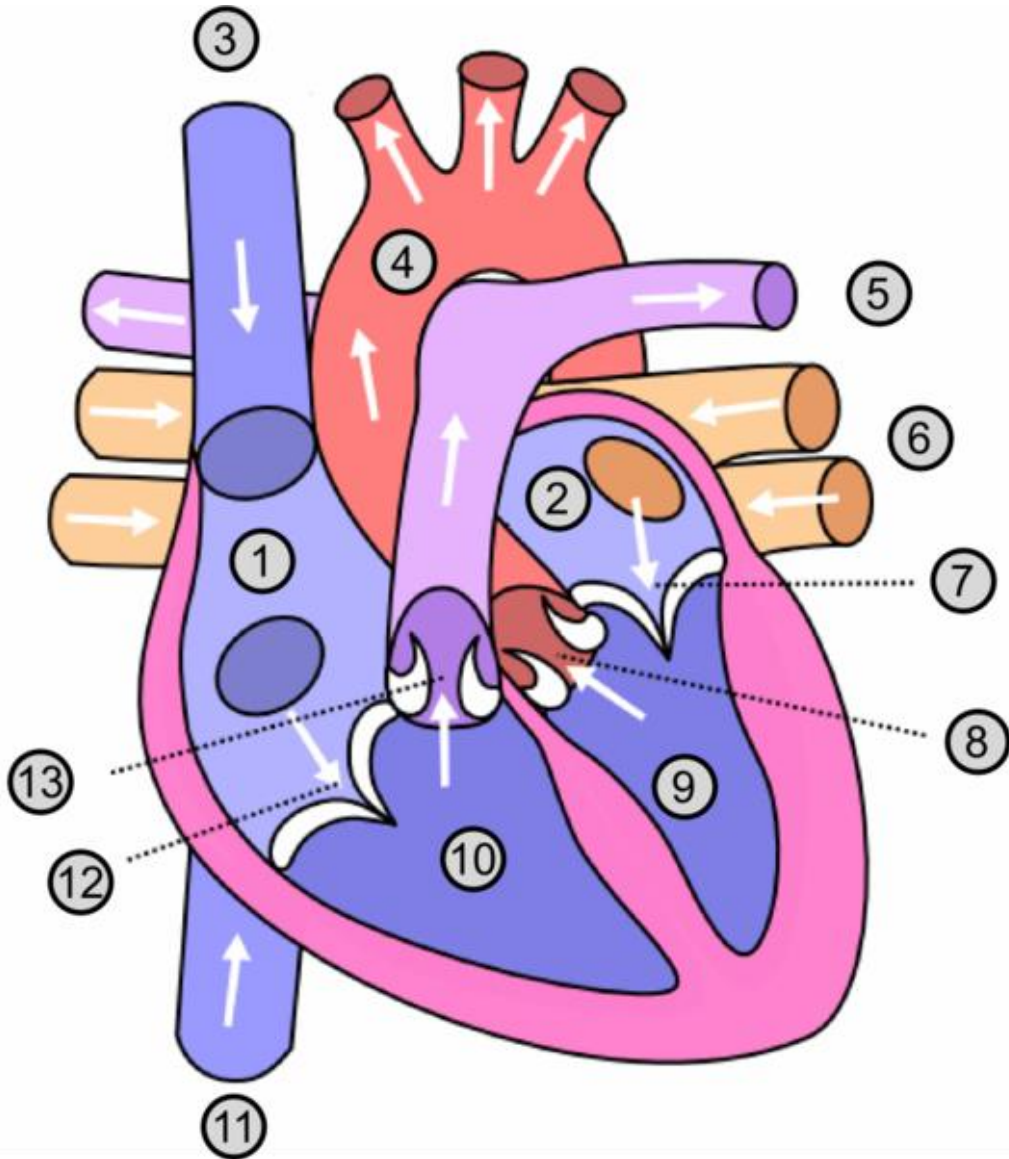

1

2

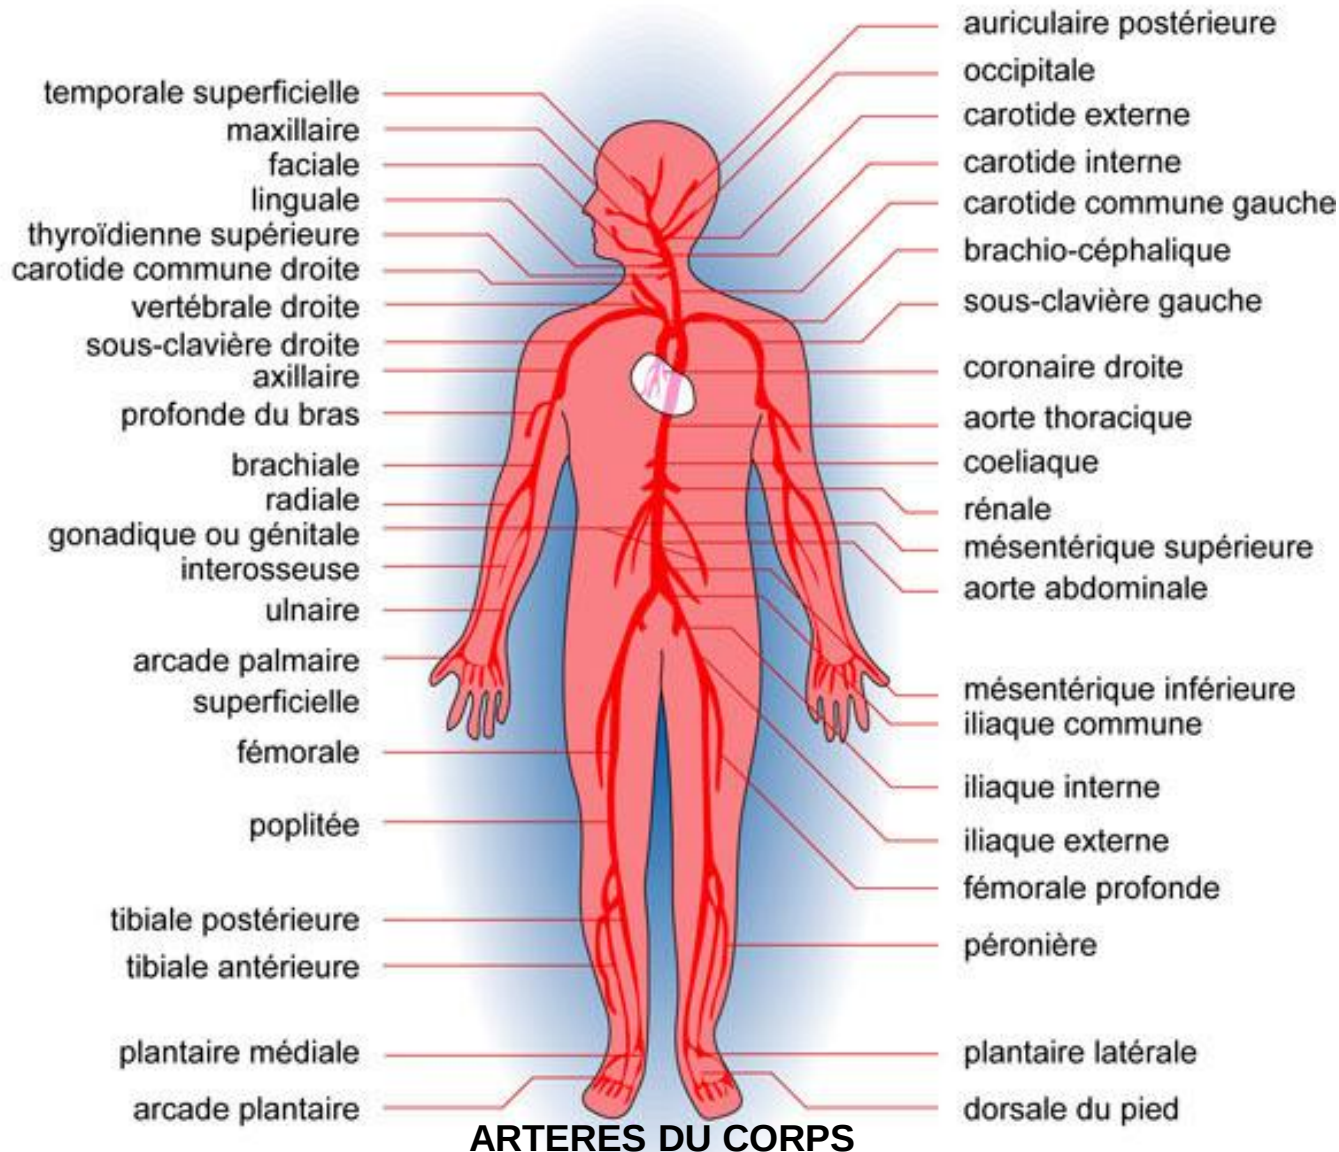

9

10

1	Oreillette droite
2	Oreillette gauche
3	Veine cave supérieure
4	Aorte
5	Artère pulmonaire
6	Veine pulmonaire
7	Valve mitrale (auriculo-ventriculaire)
8	Valve aortique
9	Ventricule gauche
10	Ventricule droit
11	Veine cave inférieure
12	Valve tricuspide
13	Valve sigmoïde (pulmonaire)

Quel est le volume sanguin moyen d'un adulte ?

5 litres

10 litres

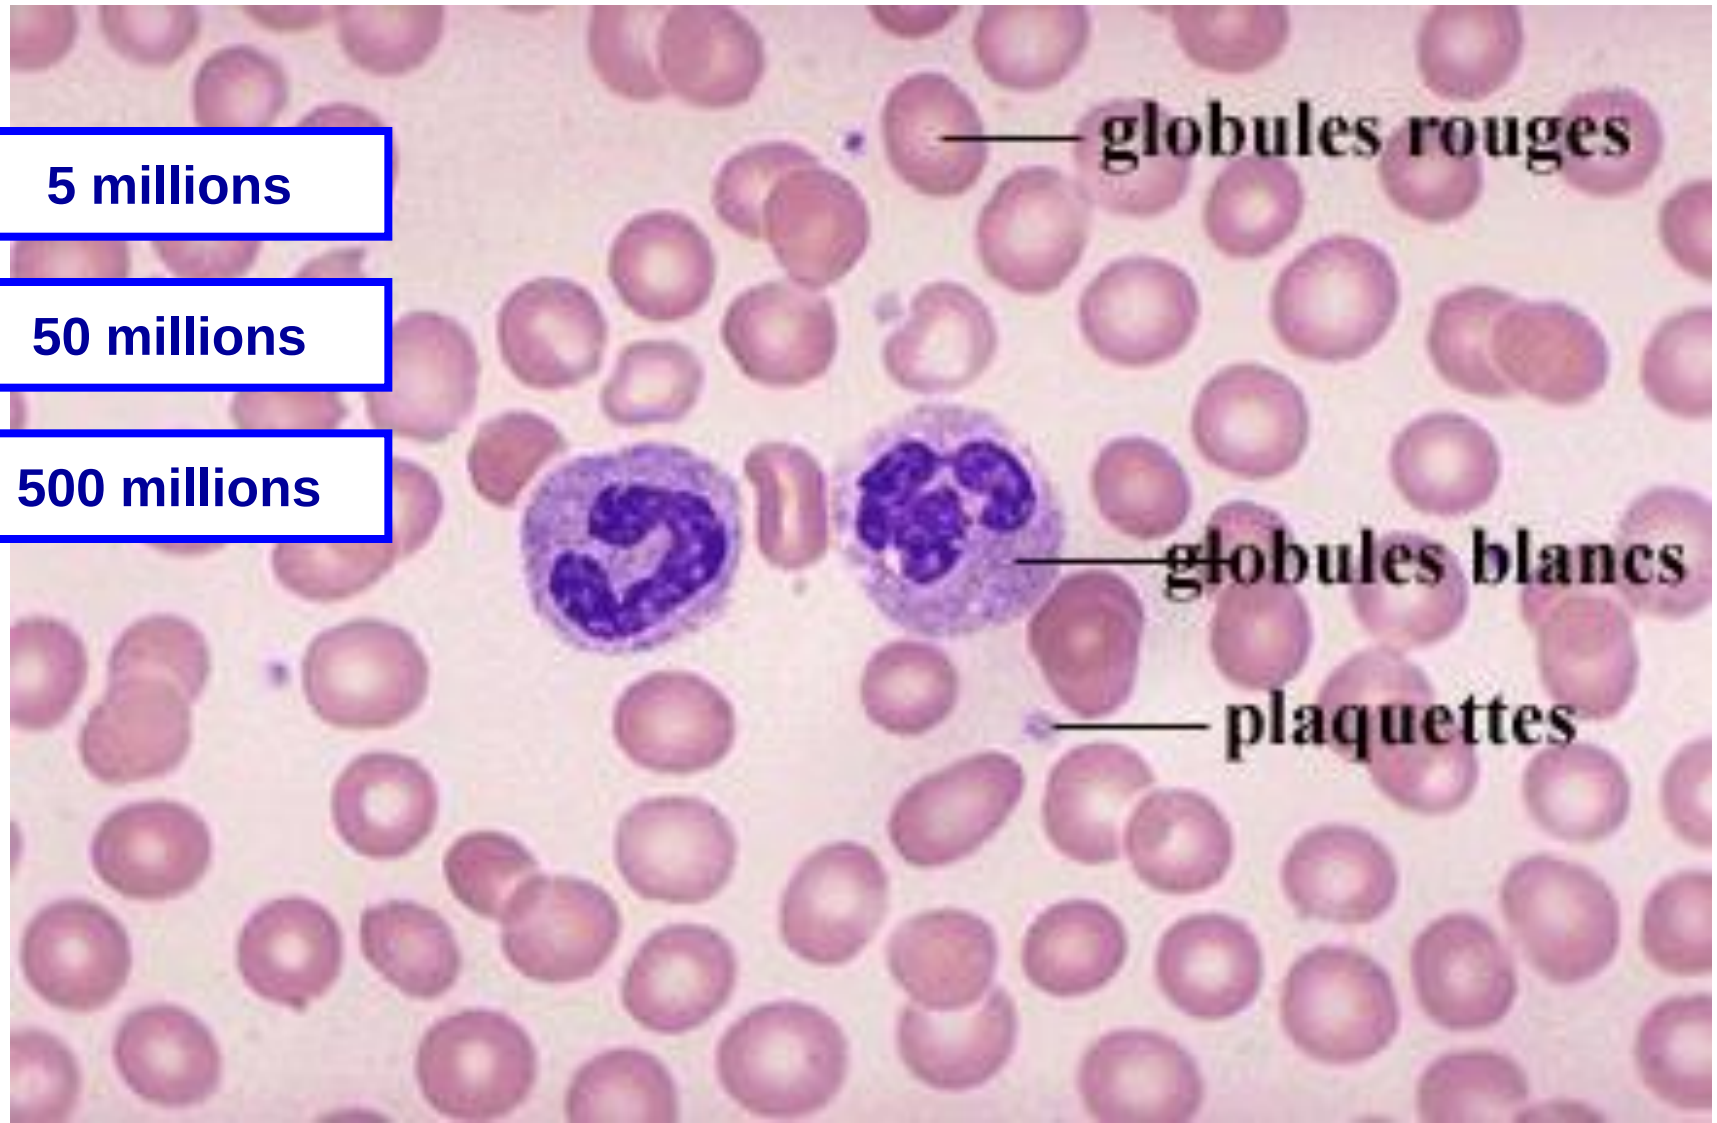

15 litres

Quel est le nombre moyen de globules rouges par mm³ de sang ?

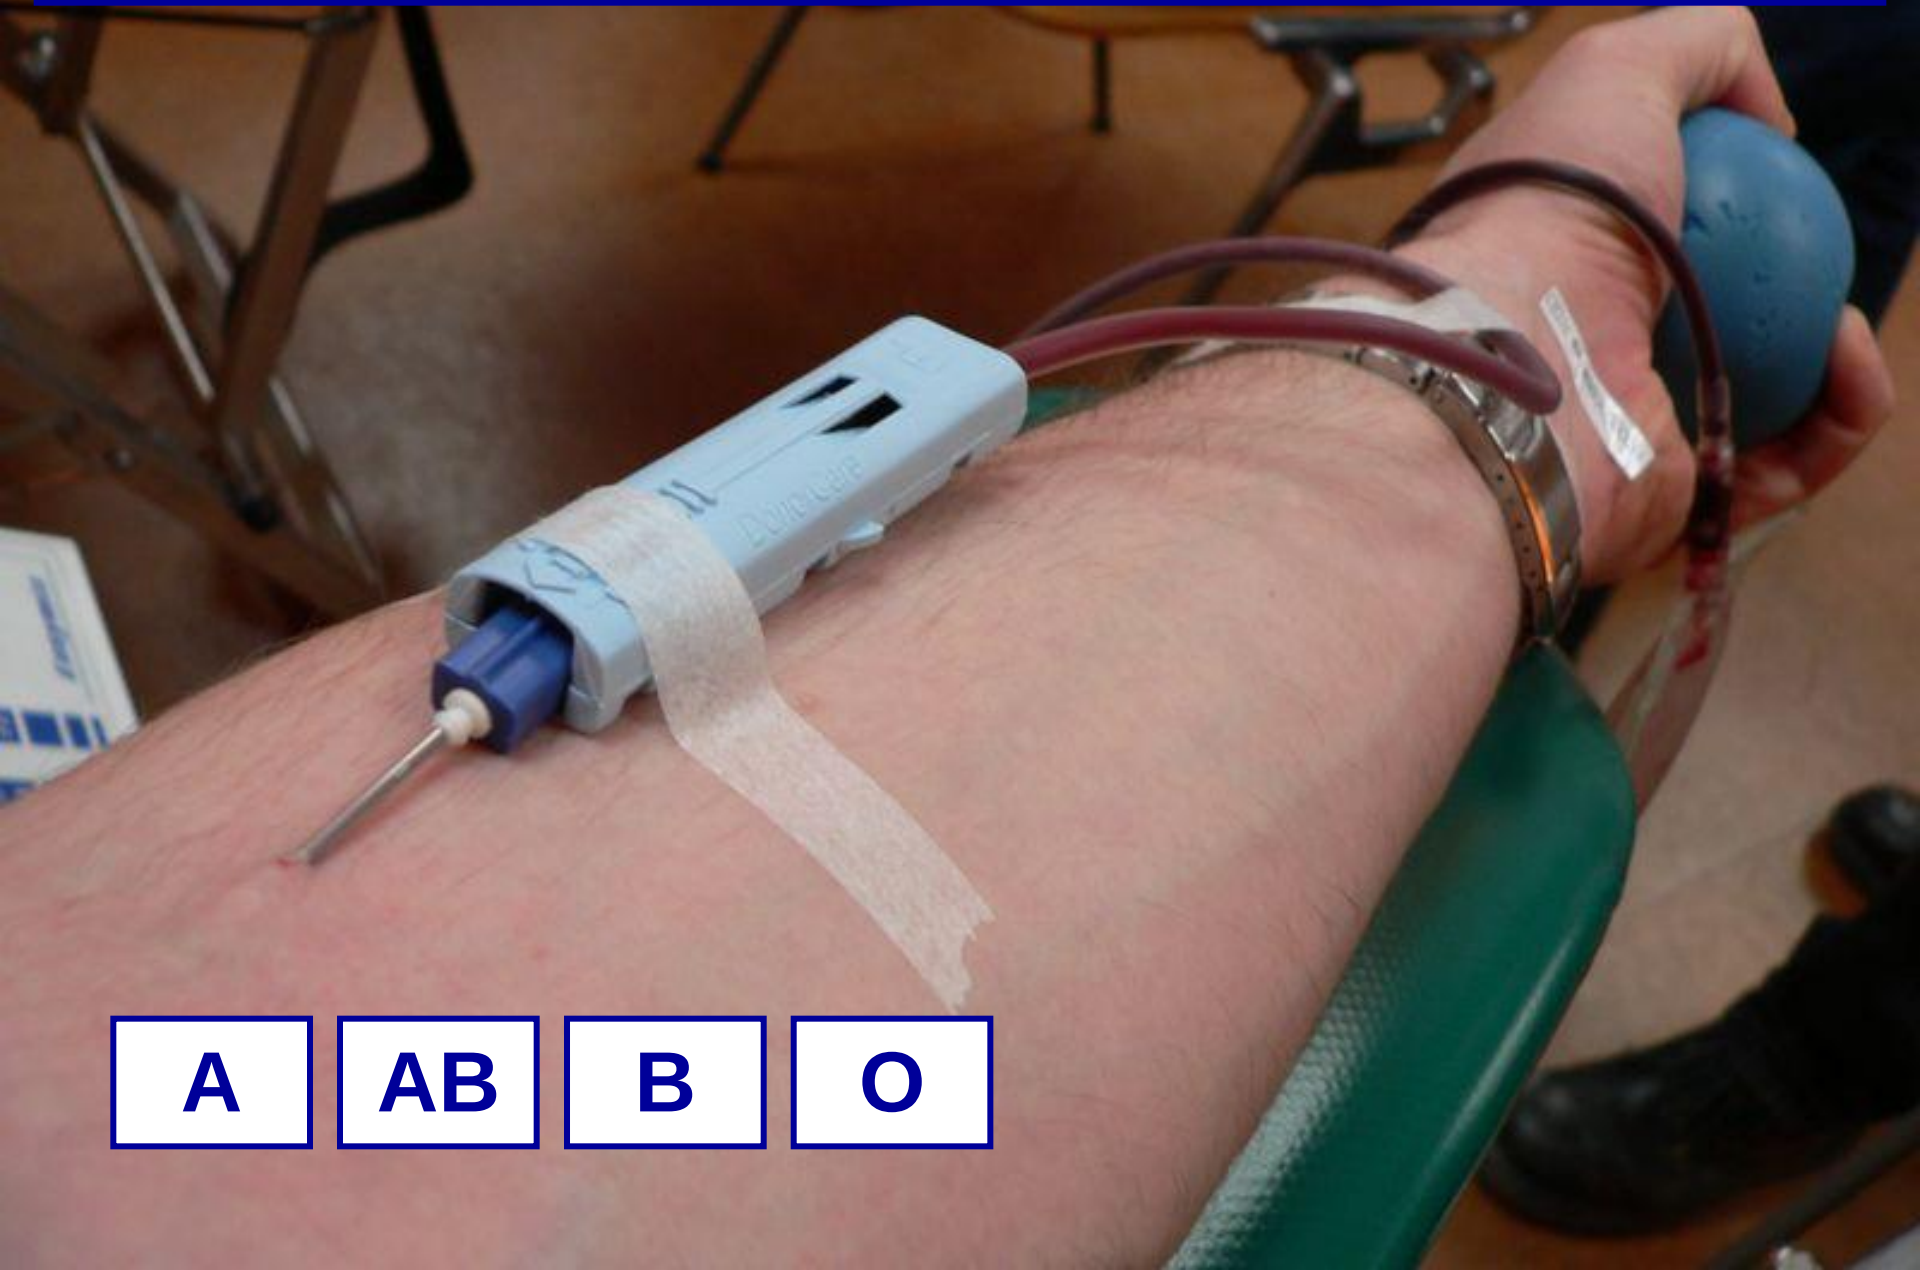

5 millions

50 millions

500 millions

Quel groupe sanguin est le donneur universel ?

A

AB

B

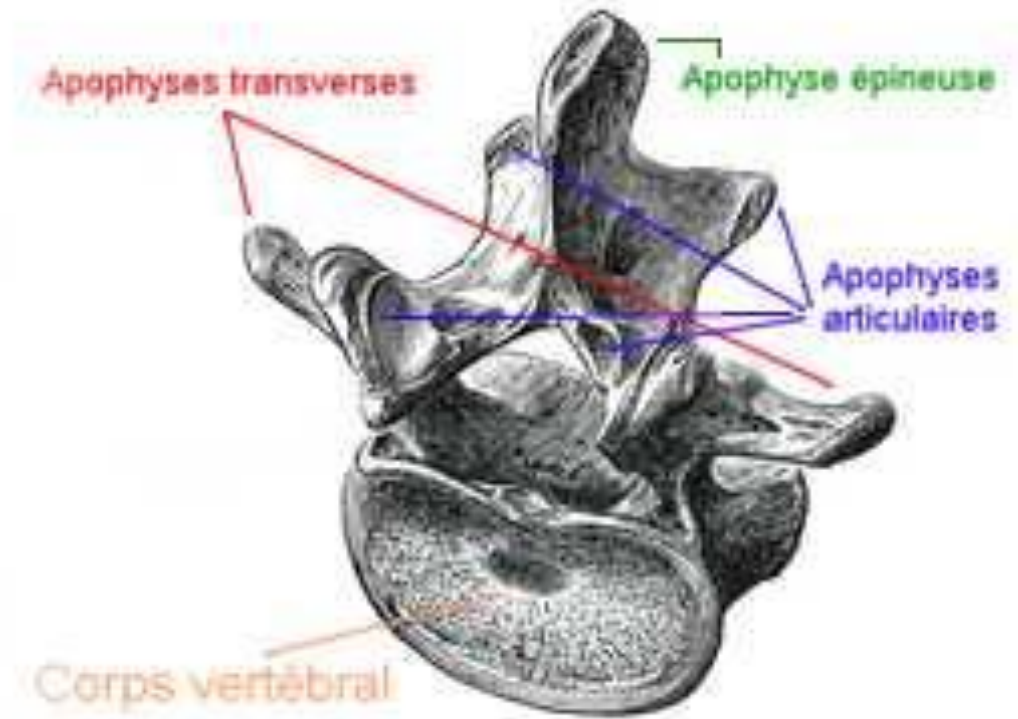

O

Combien de vertèbres dorsales possédons-nous ?

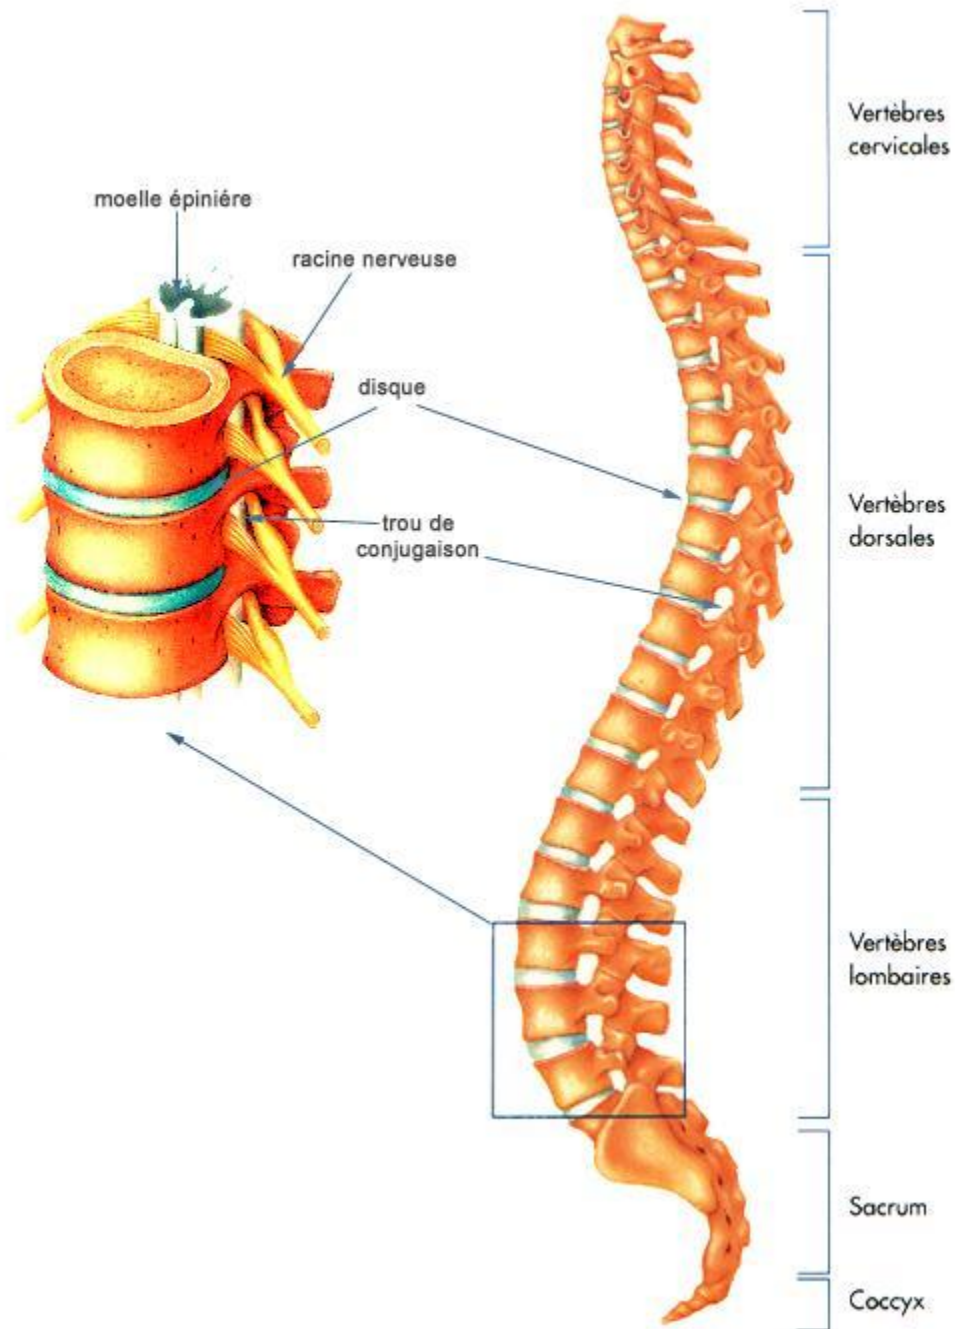

9

12

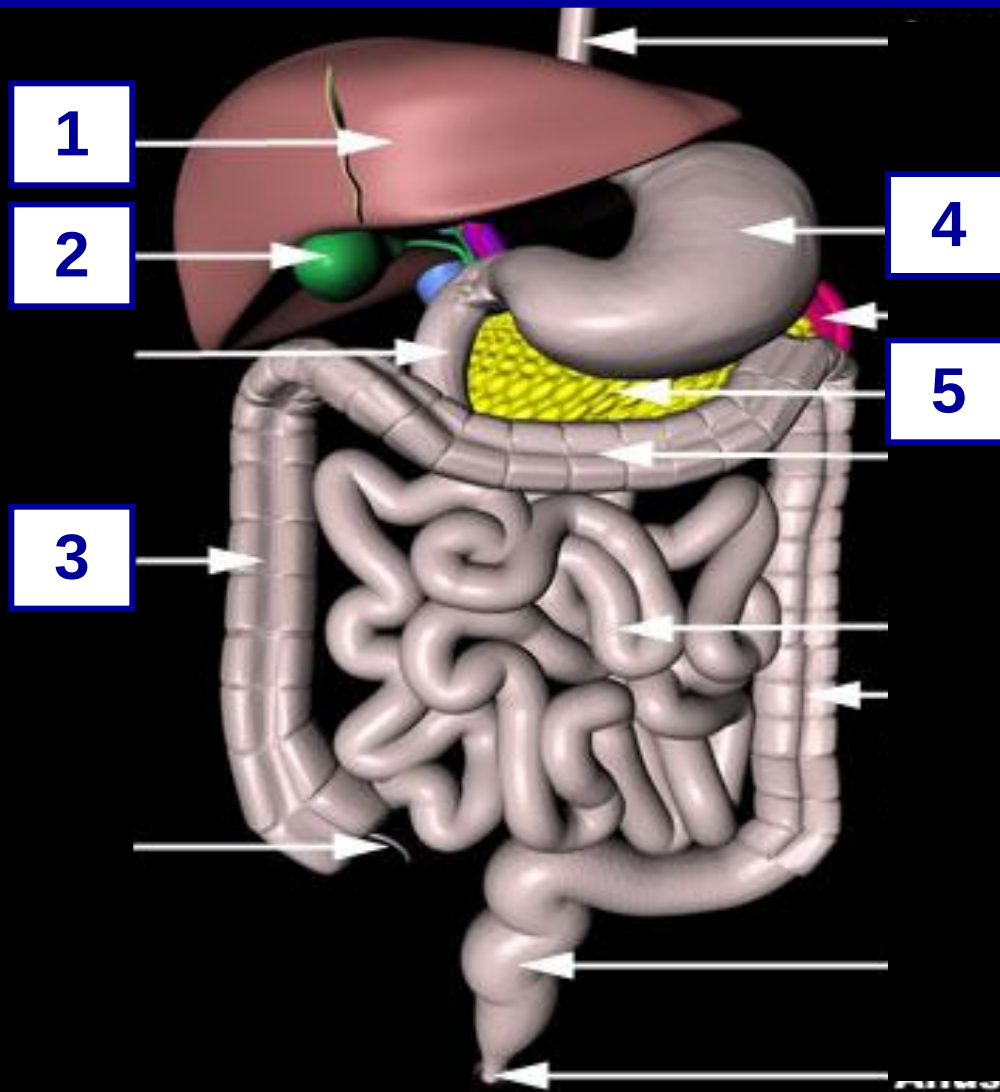

14

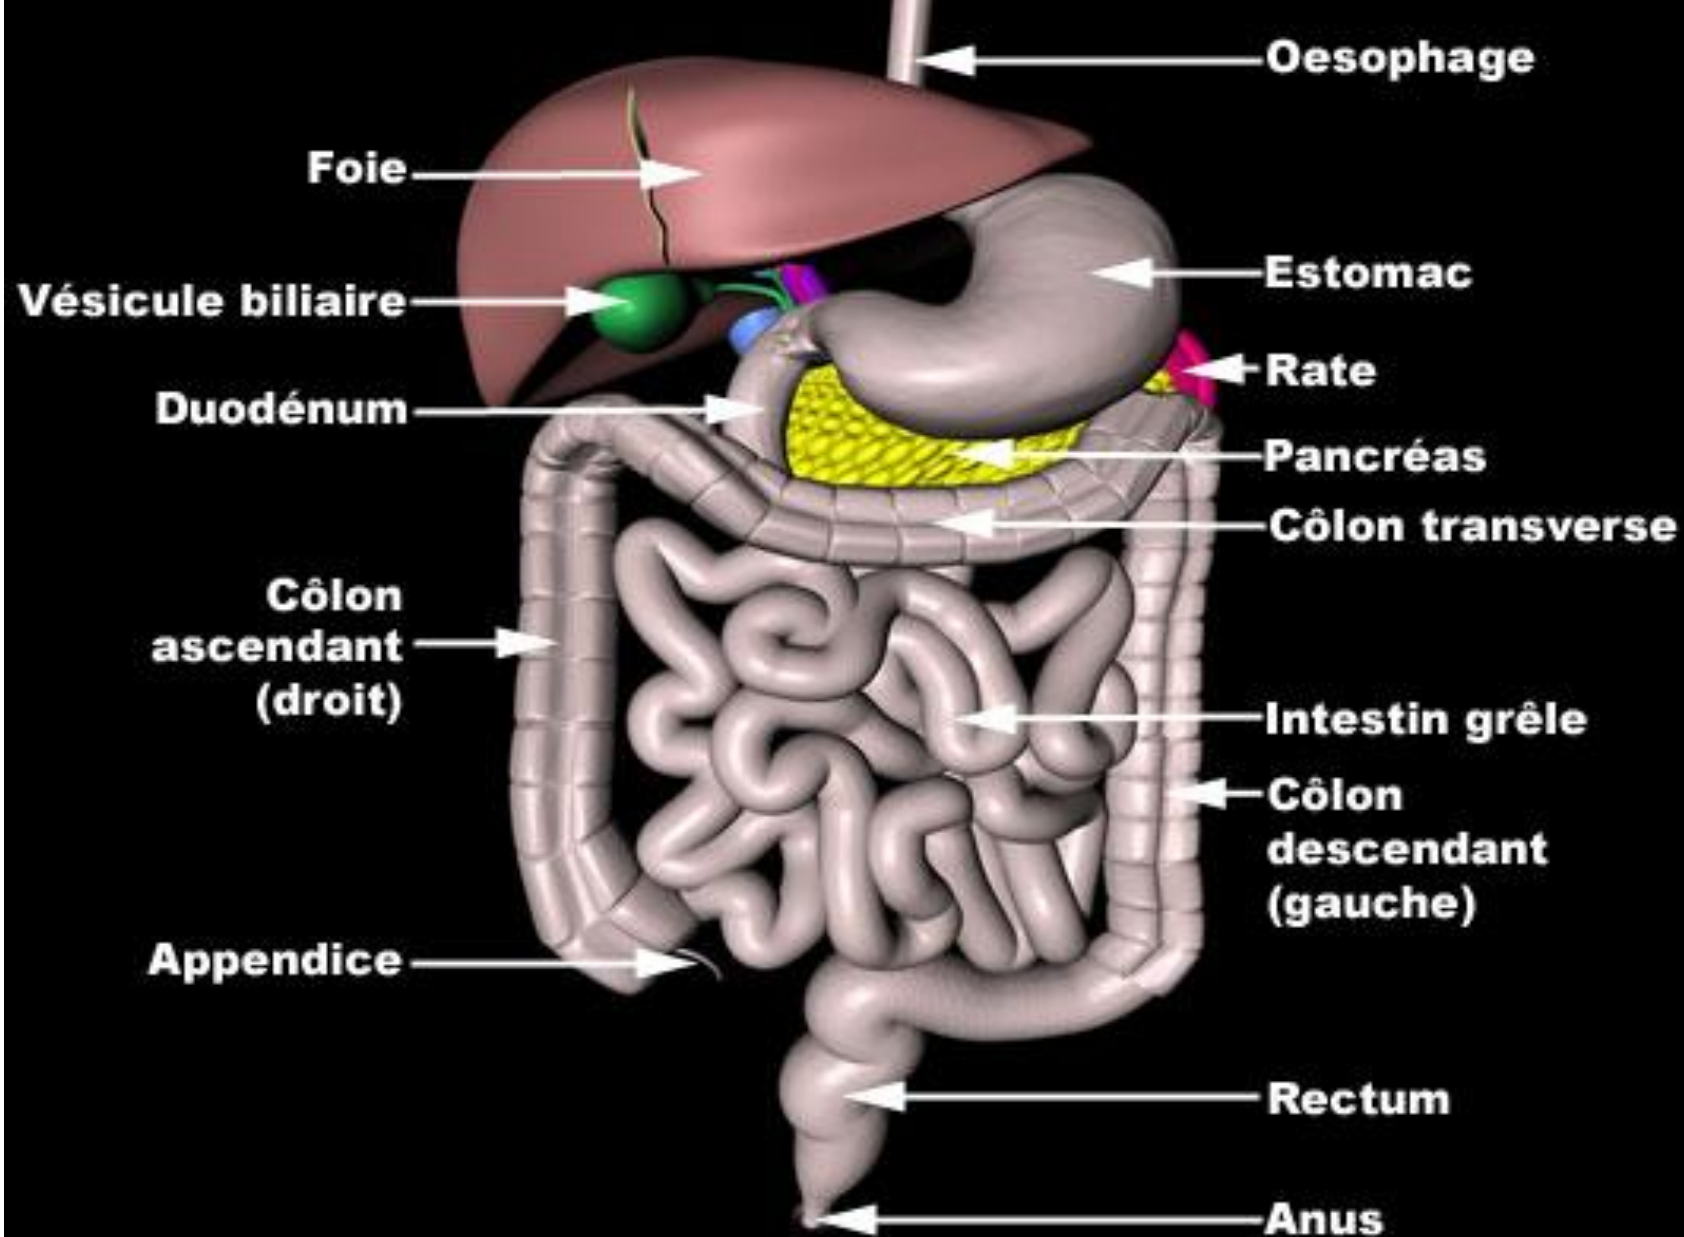

La colonne vertébrale

Où se trouve l'estomac ?

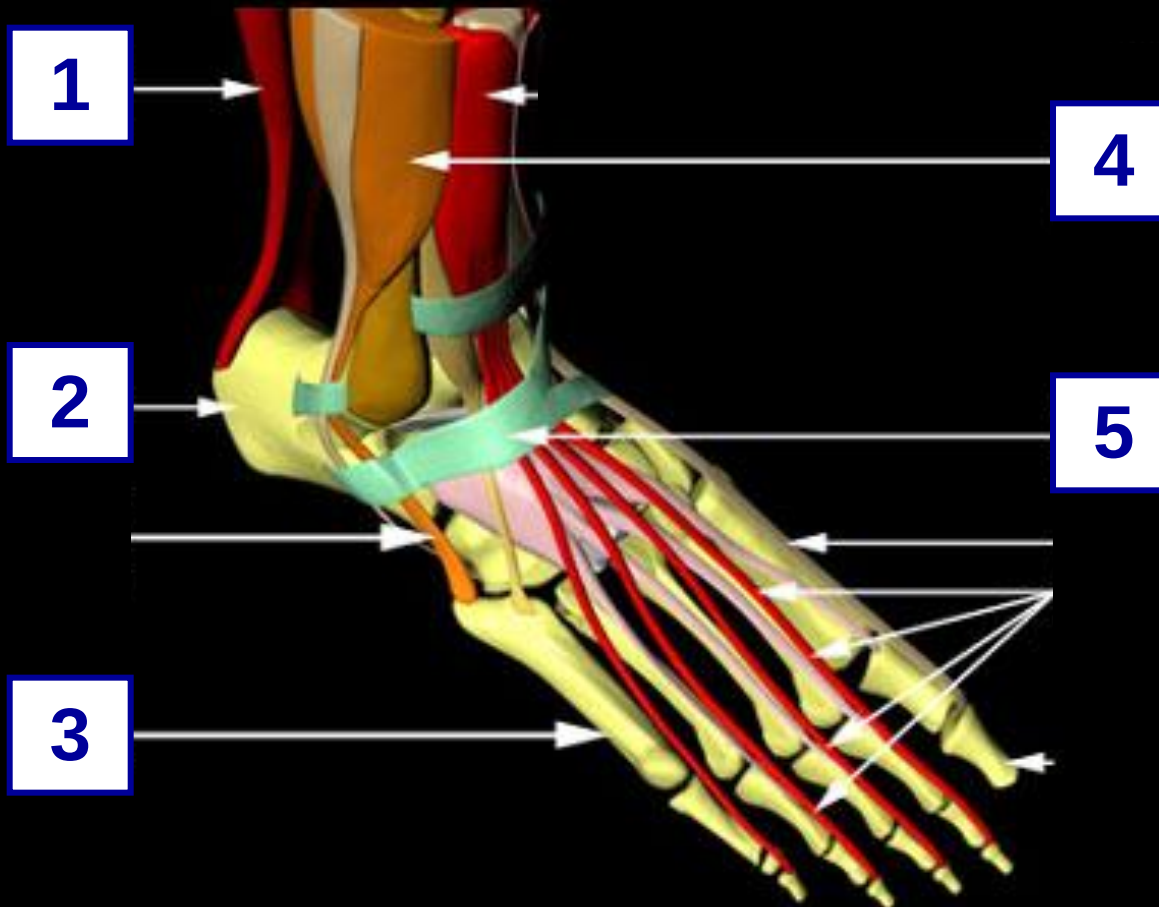

Appareil digestif (rapports anatomiques)

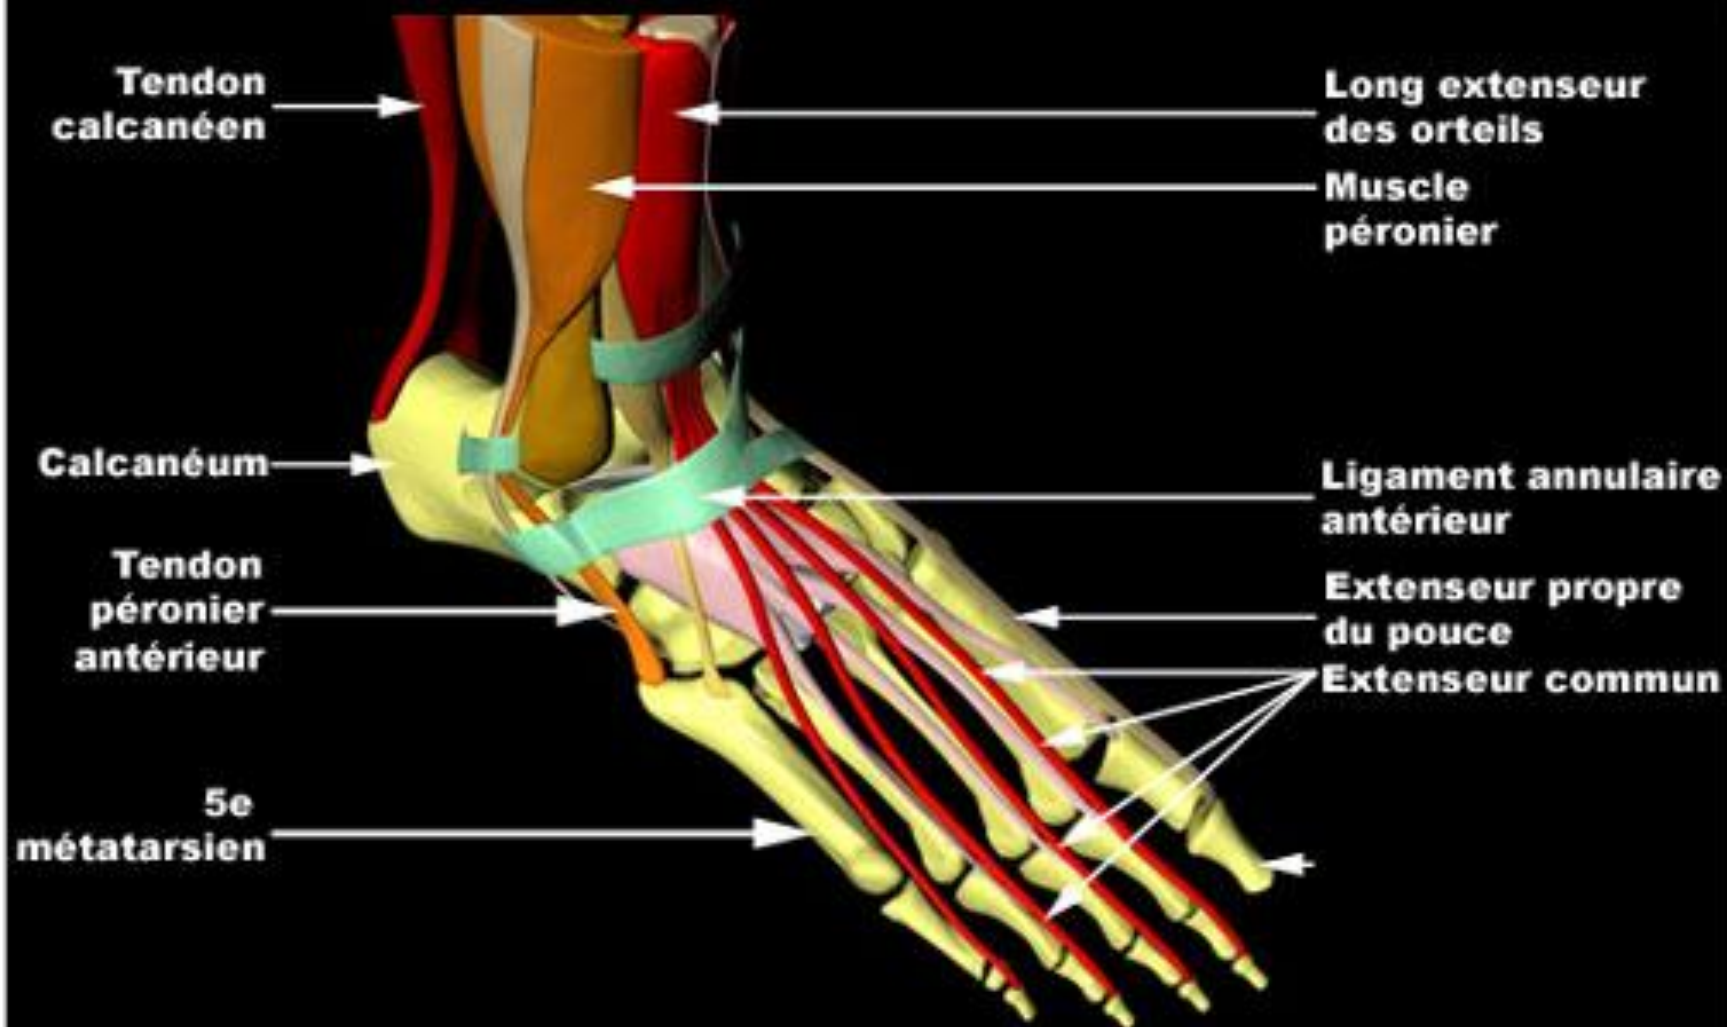

Appareil digestif (rapports anatomiques)

Où se trouve le calcanéum ?

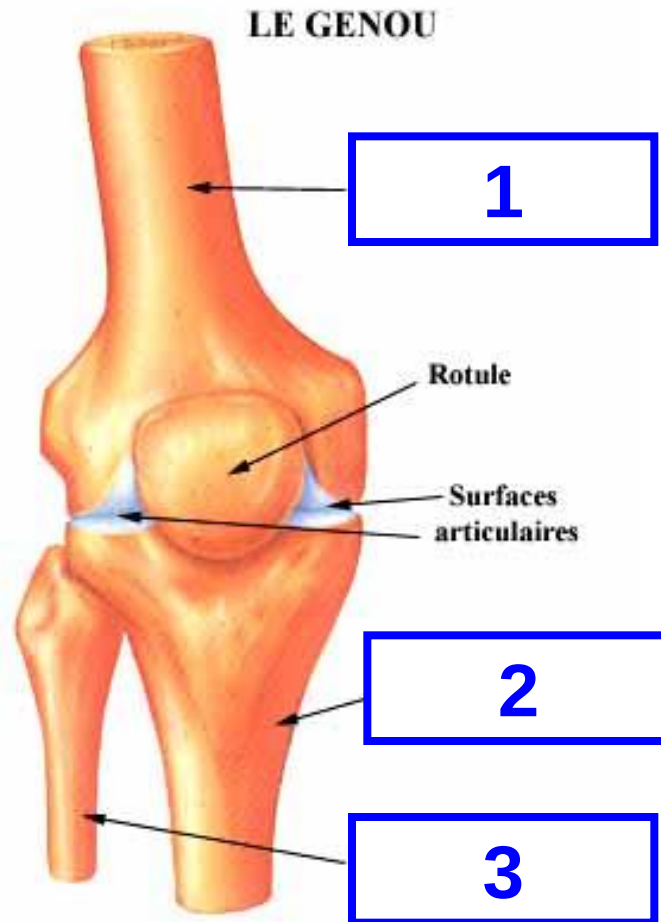

Pied vu de 3/4 dessus

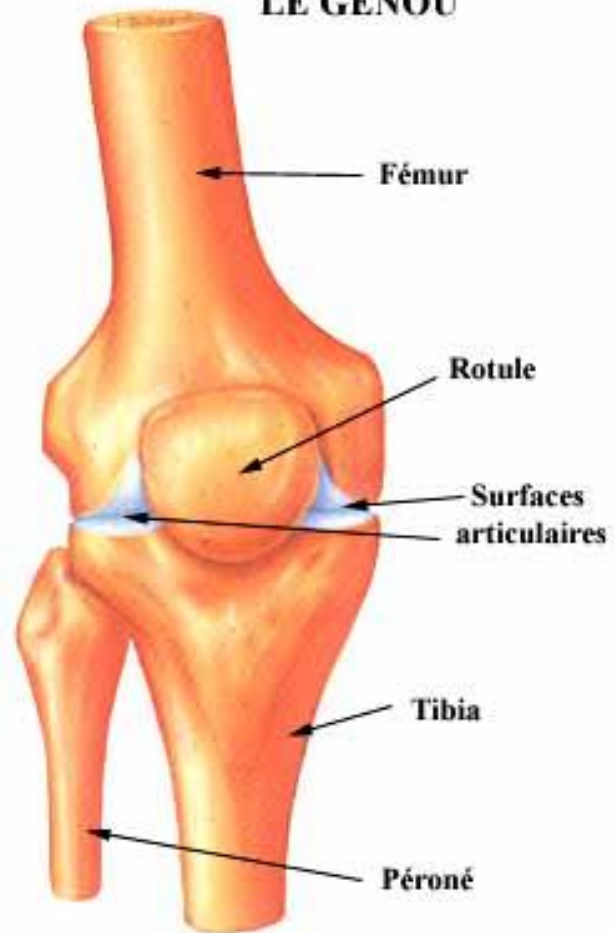

Pied vu de 3/4 dessus

Où se trouve le tibia ?

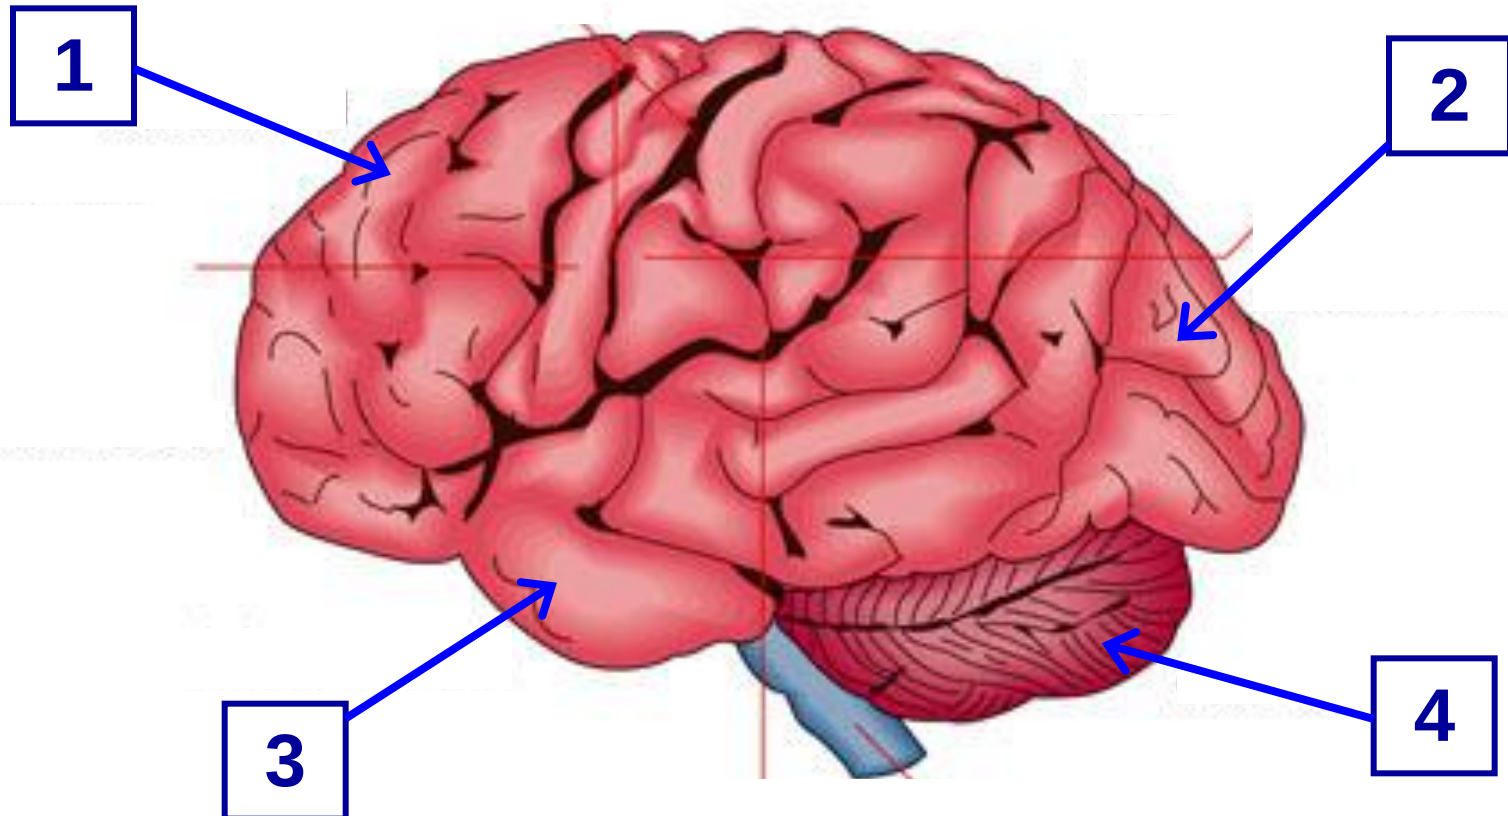

LE GENOU

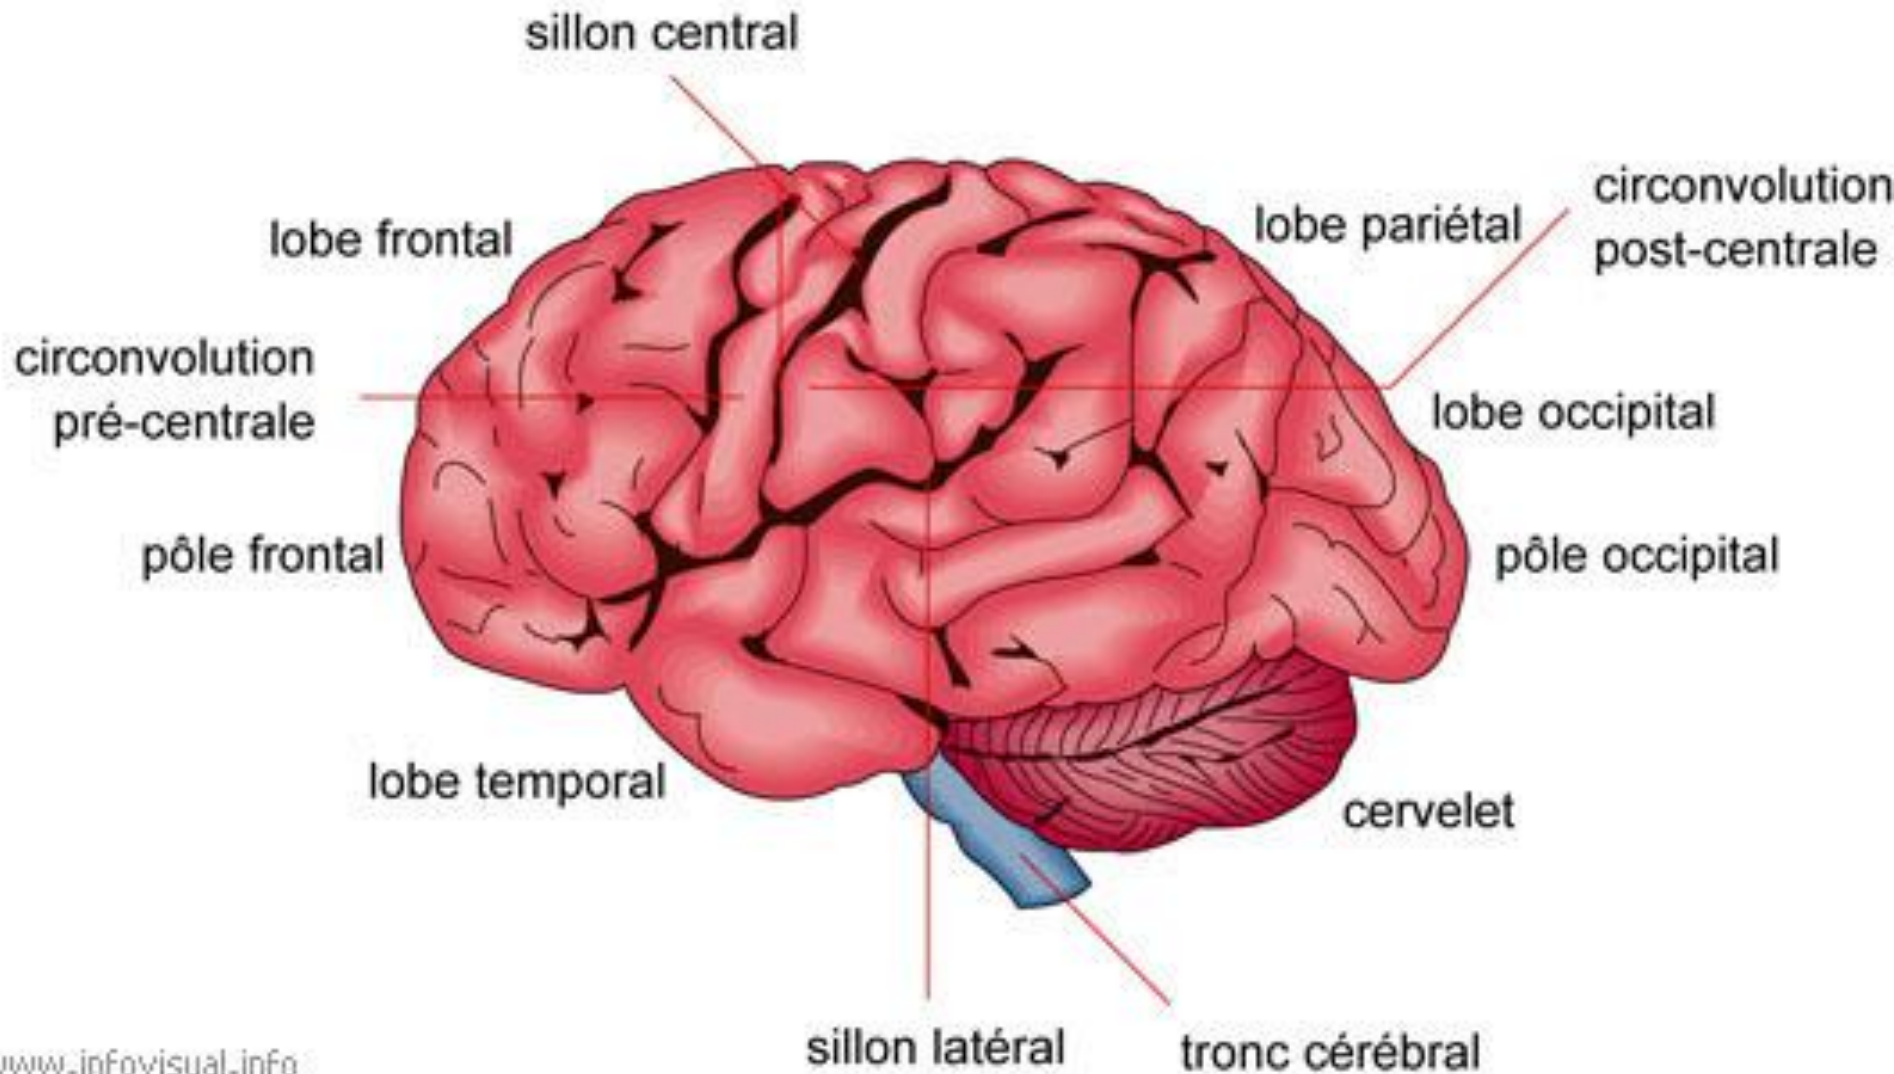

Où se trouve le cervelet ?

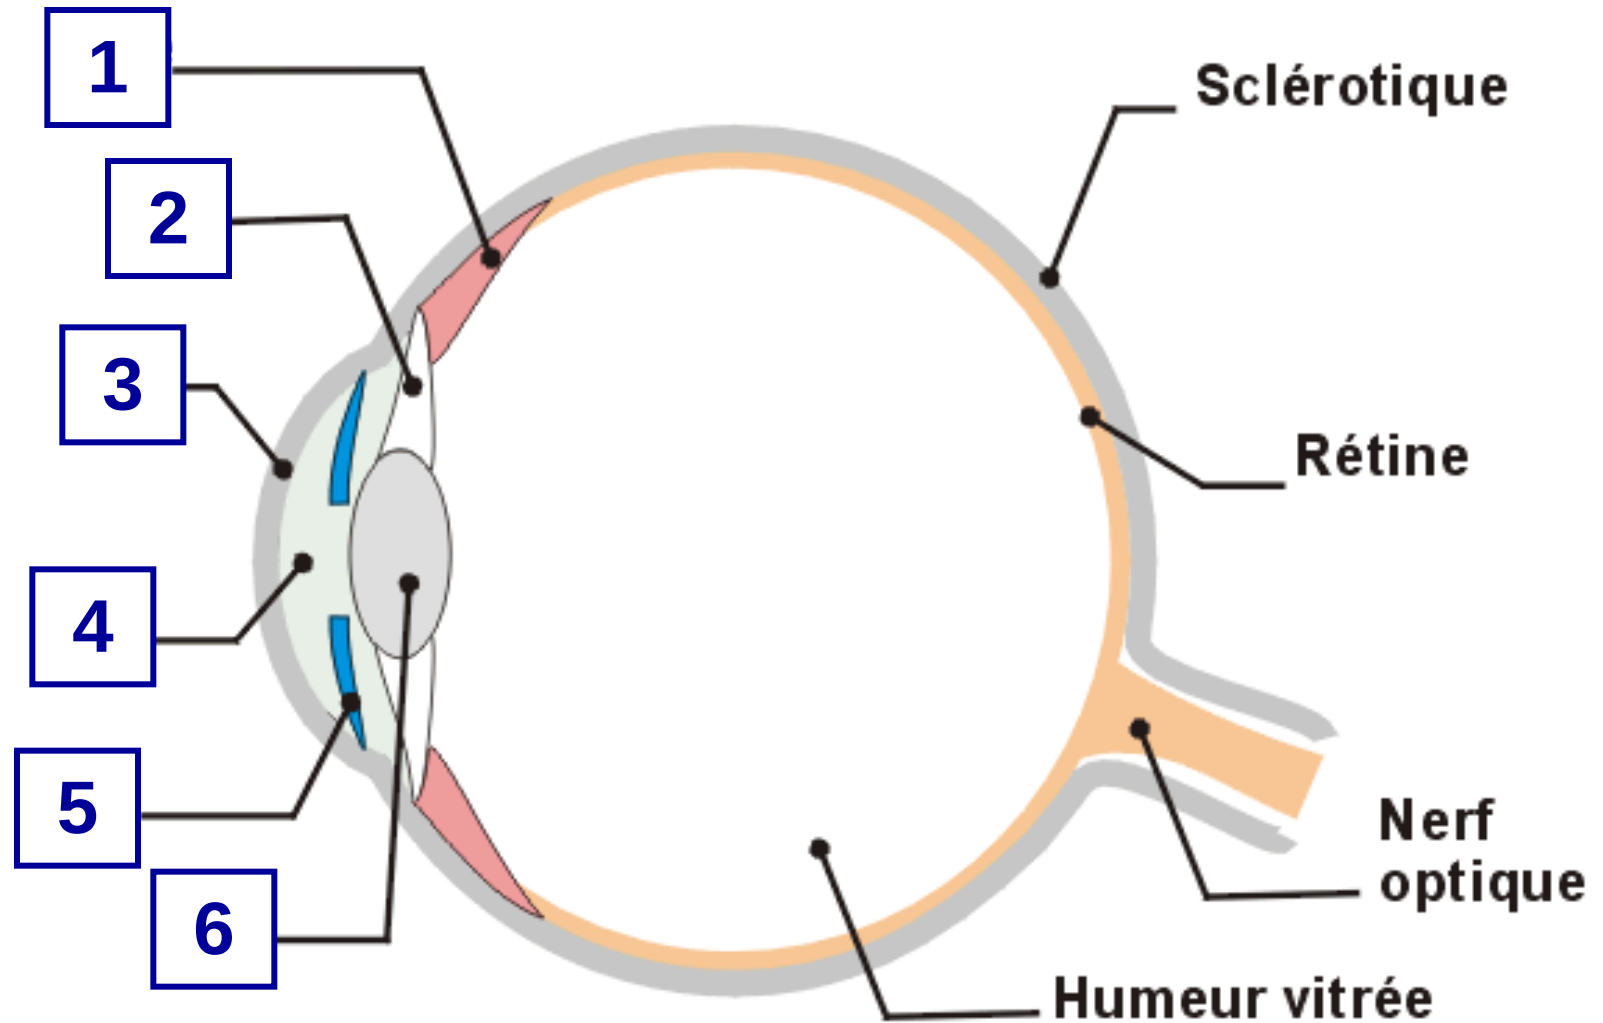

CERVEAU OU ENCÉPHALE (vue latérale)

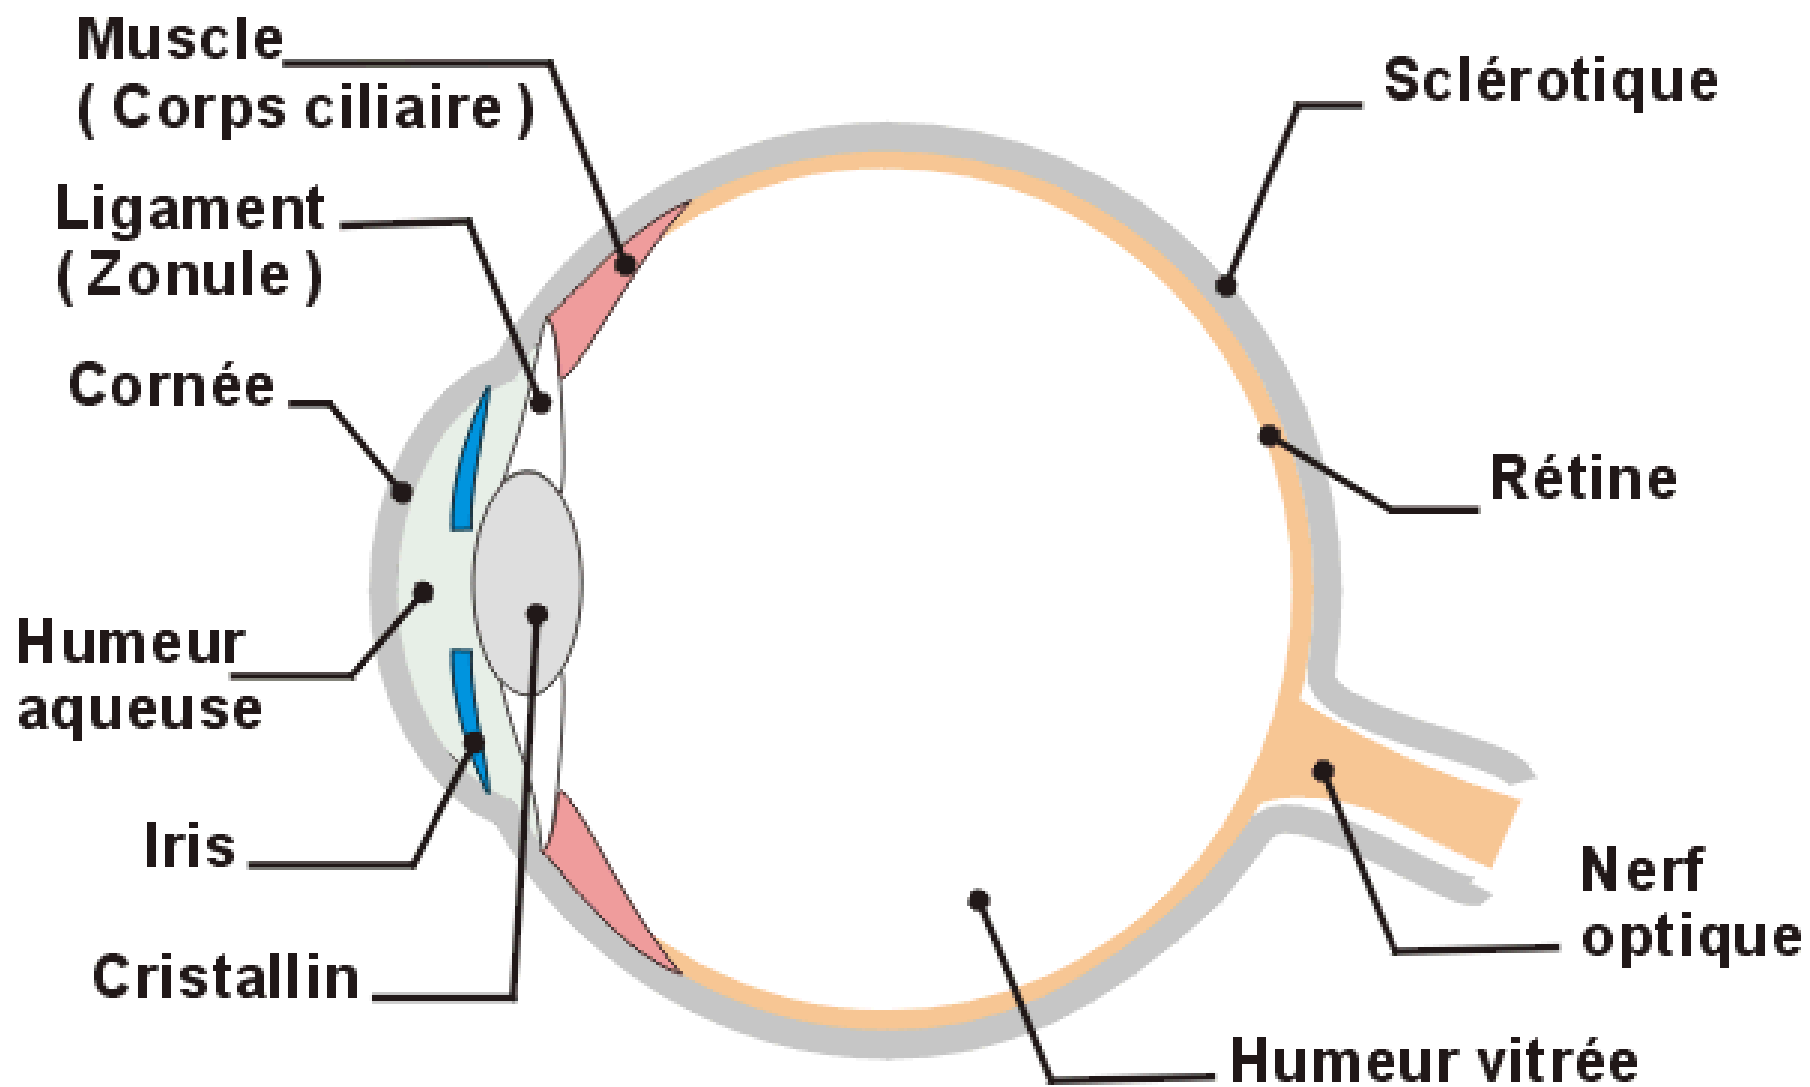

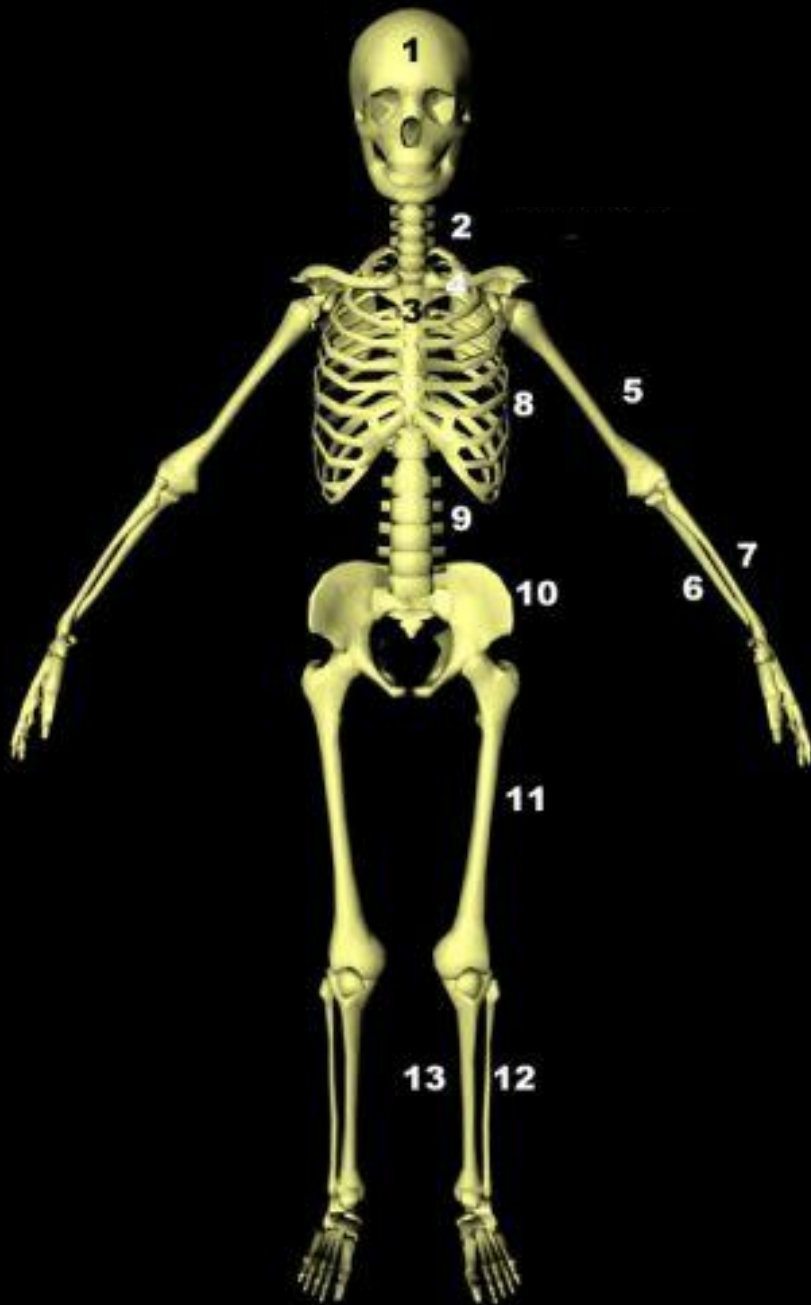

CERVEAU OU ENCÉPHALE (vue latérale)

Où se trouve le cristallin ?

Squelette (aspect général)

Où se trouve le
péroné ?
